

**KENTUCKY  
STANDARDS OF PRACTICE  
FAMILY CHILD CARE HOMES**

**A resource for  
Certified Family Child Care Home Providers,  
Child Care Surveyors  
and  
Technical Assistance Staff**

## **Kentucky Child Care Standards of Practice for Certified Providers Introduction and Purpose**

This document is intended to educate and inform child care providers, Cabinet for Health and Family Services Division of Regulated Child Care employees and child care Technical Assistance providers about the regulatory standards for licensed and certified family child care providers. The information contained in this document is not to be used as a substitute for state requirements. It is to be used in conjunction with the Kentucky Revised Statutes (KRS 199.894 to 199.8982), and the Kentucky Administrative Regulations (922 KAR 2:090, 2:100, 2:120, 2:190 and 2:280) to promote regulatory compliance, uniformity, competency and ethical practice for Cabinet employees who regulate and technical assistance staff who provide regulatory information to state approved child care providers.

The Standard of Practice (SOP) is written in the following format: The “Title #”, “Category”, and “Title” are references to the Division of Regulated Child Care’s survey tool. The Child Care Regulation Text is the specific regulatory language found in the Kentucky Administrative Regulations governing child care. The Child Care Technical Assistance Guide is a suggested resource and example for a technical assistance provider to assist child care providers in meeting the specific requirements. The purpose of this section is to counsel technical assistance providers throughout the state on Kentucky Child Care Regulations. This section does not interpret regulation; however, it is a guideline and tool to be used as a means to coach providers consistently across the state. The “Regulated Child Care Survey Method” is

the Division of Regulated Child Care's process for surveying to determine compliance with Kentucky Administrative Regulation child care requirements.

The information contained in this document is for the explicit use by child care providers, the Cabinet for Health and Family Services, Division of Regulated Child Care employees and Technical Assistance providers.

<b>Category</b>	Background Checks
<b>Title</b>	Background Check/Left Alone/Dismissed/Relocated
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:280. Section 3.</b> Implementation and Enforcement.</p> <p>(1) A person who is a child care staff member prior to January 1, 2018, shall submit to and complete background checks in accordance with this administrative regulation no later than September 30, 2018.</p> <p>(2) A child care staff member hired on or after April 1, 2018, shall:</p> <p>(a) Have completed the background checks required in accordance with this administrative regulation and found to have no disqualifying offense prior to becoming a child care staff member; or</p> <p>(b) 1. Have submitted to the background checks required in accordance with this administrative regulation;</p> <p>2. Not be left unsupervised with a child in care pending the completion of the background checks in accordance with this administrative regulation; and</p> <p>3. Be dismissed or relocated from the residence if the person is found to have a disqualifying background check result;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The National Background Check Portal (NBCP) requires that the provider have access to the KARES system on the Kentucky Online Gateway.</p> <ul style="list-style-type: none"> <li>• The provider must be able to scan and upload copies of the photo ID and print forms when completed.</li> <li>• All current certified family child care home providers and adult household members must complete the new background check process through the National Background Check Portal before September 30, 2018.</li> <li>• The Division of Child Care has developed a recommended schedule to ensure that all family child care providers complete the process between March 2018 – September 2018.</li> <li>• The provider must maintain on file for review the previously required Central Registry Check, Criminal Record Check and out of state check if applicable</li> </ul> <p>Any person (substitute, assistant) hired after April 1, 2018, must submit to the NBCP background check system prior to working in the home. Once the fingerprints have been scanned, the assistant or substitute may work in the home but cannot be alone with a child until the results of the background check are received.</p> <p>Questions should be submitted to: <a href="mailto:chfsdccnbc@ky.gov">chfsdccnbc@ky.gov</a></p>
<b>Regulated Child Care Survey Method</b>	<p>Surveyors should review KARES, prior to conducting an inspection.</p> <p>Surveyors should review staff schedules, observe and document staff names to determine who is working with the children.</p> <p>A staff member can be provisionally hired and work/live in the home after they have submitted to the live fingerprint scan, but may not be left unsupervised with children.</p>

<b>Title #</b>	10
<b>Category</b>	Background Checks
<b>Title</b>	Submit background check
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:280. Section 4.</b> Procedures and Payments.</p> <p>(1) To initiate the process for obtaining background checks on a prospective child care staff member, the child care provider shall:</p> <p>(a) Request that the prospective child care staff member provide a copy of his or her driver's license or other government-issued photo identification and verify that the photograph clearly matches the prospective child care staff member;</p> <p>(b) Request that the prospective child care staff member complete and sign the:</p> <ol style="list-style-type: none"> <li>1. DCC-500, Applicant Child Care Staff Member Waiver Agreement and Statement; and</li> <li>2. DCC-501, Disclosures to Be Provided to and Signed by the Applicant Child Care Staff Member; and</li> </ol> <p>(c) Log on to the NBCP portal and enter the prospective child care staff member's demographic information for a check of the:</p> <ol style="list-style-type: none"> <li>1. Child abuse and neglect central registry pursuant to 922 KAR 1:470;</li> <li>2. National Crime Information Center's National Sex Offender Registry in accordance with 34 U.S.C. 20921; and</li> <li>3. Sex Offender Registry established in accordance with KRS 17.500 through 17.580;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>All new staff are referred to in the NBCP system as "prospective employees." To ensure the provider has the information needed to enter a new staff in the NBCP, each person (provider, substitute, assistant, adults) in the home should complete the Applicant Pre-Screening form. The provider will need the information on this form to complete the background check on the NBCP.</p> <p>The provider must make a copy of the photo ID; i.e., driver's license, government issued photo ID, or passport. The provider is required by the regulation to check the ID to ensure it is not fraudulent. For example: does the picture on the ID match look like the person? The Waiver Form (DCC-500) and Disclosure Form (DCC-501) must be completed and signed by each person. These forms are available on the NBCP portal along with all other required forms.</p> <p>The provider must maintain copies of these on file for review and provide copies to the Cabinet if requested.</p>
<b>Regulated Child Care Survey Method</b>	<p>Surveyors should review KARES prior to conducting an inspection. Surveyors can verify the provider has initiated the process on a prospective child care staff member.</p> <p>No staff member or adult household member should be present in the home with children prior to submitting to the live fingerprint scan.</p>

<b>Title #</b>	15
<b>Category</b>	Background Checks
<b>Title</b>	Submit fingerprints
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:280. Section 4. Procedures and Payments.</b></p> <p>(4)(a) Upon submission of payment in accordance with subsections (2) and (3) of this section, the child care provider shall print a copy of the DCC-504, Applicant Child Care Staff Member Live Scan Fingerprinting Form, from the NBCP portal and provide the form to the child care staff member.</p> <p>(b) The child care staff member shall:</p> <ol style="list-style-type: none"> <li>1. Have no more than ninety (90) calendar days from the date of payment pursuant to subsections (2) and (3) of this section to submit the child care staff member's fingerprints at an authorized collection site for NBCP; and</li> <li>2. Present the DCC-504 and driver's license or other government-issued photo identification to the designated agent at an authorized collection site prior to fingerprint submission;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>When setting up a prospective employee and/or adult household member on the NBCP, a live scan fingerprinting form (DCC-504) is generated on the final screen (lower left hand side of the screen.)</p> <p>The prospective employee should print the live scan fingerprinting form. This form (the DCC-504) contains the addresses and contact information for three authorized fingerprint collection sites closest to the home address of the prospective employee.</p> <p>To complete the background check process, each prospective employee must go to an authorized collection site to submit their fingerprints and bring the DCC-504 and photo ID with them to the collection site.</p> <p>Once a record is set up on the NBCP, the provider must submit their fingerprints within 90 days or their record will be removed from the system.</p>
<b>Regulated Child Care Survey Method</b>	Surveyors should review KARES prior to conducting an inspection. Surveyor will compare date that the fingerprints were obtained with date of payment to determine no more than ninety (90) calendar days has lapsed.

<b>Category</b>	Background Checks
<b>Title</b>	Disqualifying background check result
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:280. Section 6.</b> Disqualifying Background Check Results.</p> <p>(1) Unless a rehabilitative review pursuant to Section 9 of the administrative regulation determines the individual is eligible to be hired, an individual shall be ineligible to:</p> <p>(a) Be hired or otherwise serve as a child care staff member if the individual:</p> <ol style="list-style-type: none"> <li>1. Meets a criterion specified in 45 C.F.R. 98.43(c);</li> <li>2. Has been convicted of, or has entered an Alford plea, a plea of guilty, or a plea of nolo contendere to, a: <ol style="list-style-type: none"> <li>a. Drug-related felony, and five (5) years has not elapsed since the person was fully discharged from imprisonment, probation, or parole;</li> <li>b. Sex or violent crime pursuant to KRS 17.165; or</li> <li>c. A felony offense under: <ol style="list-style-type: none"> <li>(i) KRS Chapter 506, inchoate offenses;</li> <li>(ii) KRS Chapter 511, burglary and related offenses;</li> <li>(iii) KRS Chapter 515, robbery;</li> <li>(iv) KRS Chapter 520, escape and other offense related to custody;</li> <li>(v) KRS Chapter 525, riot, disorderly conduct, and related offenses;</li> <li>(vi) KRS Chapter 527, offense relating to firearms and weapons;</li> <li>(vii) KRS Chapter 529, prostitution offenses; or</li> <li>(viii) KRS Chapter 530, family offenses;</li> </ol> </li> </ol> </li> <li>3. Is listed on the: <ol style="list-style-type: none"> <li>a. Central registry established in accordance with 922 KAR 1:470; or</li> <li>b. Another state's state-based child abuse and neglect registry or database; or</li> </ol> </li> <li>4. Has been convicted of, or has entered an Alford plea, plea of guilty, or a plea of nolo contendere to, an offense under a criminal statute of the United States or of another state similar to an offense specified in this paragraph;</li> <li>5. Has an open warrant;</li> <li>6. Has a criminal background check result indicating that the individual should be approached with caution by authorities; or</li> <li>7. Has a pending charge for a criminal offense specified in this paragraph;</li> </ol> <p>or</p> <p>(b) Serve as a child care center's applicant, licensee, or director if the individual has been convicted of, or has entered an Alford plea, a plea of guilty, or a plea of nolo contendere to, a felony offense involving fraud, embezzlement, theft, or forgery.</p> <p>(2) An individual who has received a pardon for a disqualifying offense or has had the record expunged, or has evidenced dismissal of a warrant or disqualifying charge may serve as a child care staff member;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>When the background check process is completed, the child care provider will receive notification from the Cabinet whether or not a prospective employee is eligible for hire.</p> <p>The child care provider will be notified by email when the background check is finalized and the determination will be listed on the provider's NBCP portal</p> <p>Information regarding this process is found on page 3 of the Waiver (DCC-500).</p>
<b>Regulated Child Care Survey Method</b>	<p>Surveyor should review KARES, prior to conducting an inspection. Surveyor will verify an ineligible, potential child care staff member is not employed at the center unless the potential staff member is under rehabilitative review.</p>

<b>Title #</b>	35
<b>Category</b>	Background Checks
<b>Title</b>	Disqualifying criteria/3 day notification
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:280. Section 7.</b> Notice of A Disqualifying Background Check Result and Appeals.</p> <p>(2) In addition to the cabinet's notification in accordance with subsection (1) of this section, a child care provider that receives notice from the cabinet that a prospective or current child care staff member has been determined to have a disqualifying background check result in accordance with Section 6 of this administrative regulation shall notify the child care staff member of the cabinet's determination within three (3) business days of receipt of the notice;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The Cabinet will notify the child care provider if a prospective employee has been determined to be ineligible for hire. It is the responsibility of the child care provider to notify the prospective employee within three (3) days upon receipt of the notification of the Cabinet.</p> <p>If a prospective employee is not eligible for hire, an informal or rehabilitative review may be requested in writing by the prospective employee.</p> <p>The regulation does not indicate how notification should be made. Encourage the provider to maintain documentation.</p>
<b>Regulated Child Care Survey Method</b>	Surveyor should review KARES for disqualifying background check. Determine the date that child care center received notification in KARES and interview the child care center provider to determine when the staff member was notified.

<b>Title #</b>	40
<b>Category</b>	Background Checks
<b>Title</b>	Termination of staff member
<b>Child Care Regulation Text</b>	<p><b>922 2:280. Section 8.</b> Termination or Relocation of a Child Care Staff Member upon Receipt of Notice of a Disqualifying Background Check Result.</p> <p>(1) If a prospective or current child care staff member has not requested an informal review or a rehabilitative review in accordance with Section 9 of this administrative regulation, the child care provider shall:</p> <p>(a)1. Terminate the child care staff member no later than ten (10) calendar days after receipt of notice of the cabinet's determination, including the disqualifying background check result;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The Cabinet will notify the child care provider if a prospective employee has been determined to be ineligible for hire. If the prospective employee would like to request an Informal Review, directions and timelines for this process are found on page 3 of the Waiver Agreement (DCC-500).</p> <p>If there is no request for an Informal Review, it is the responsibility of the child care provider to terminate employment of the prospective employee within ten (10) days from receipt of the notification of the Cabinet.</p> <p>Encourage the provider to maintain a written record for future reference of when the notification was received from the Cabinet and details on how and when employment was terminated.</p>
<b>Regulated Child Care Survey Method</b>	Review KARES to determine if there is an ineligible staff. If so, interview to determine if the staff member has requested an informal/rehabilitative review. Review documentation/KARES to determine the date of termination.

<b>Title</b>	Relocation of family member
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:280. Section 8.</b> Termination or Relocation of a Child Care Staff Member upon Receipt of Notice of a Disqualifying Background Check Result.</p> <p>(1) If a prospective or current child care staff member has not requested an informal review or a rehabilitative review in accordance with Section 9 of this administrative regulation, the child care provider shall:</p> <p>(a) 2. Change residence of an adult household member in the child care provider's home no later than fifteen (15) calendar days after receipt of notice of the cabinet's determination, including disqualifying background check result;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The Cabinet will notify the child care provider if a staff/adult in the home has been determined to have a disqualifying background check result. It is the responsibility of the child care provider to ensure the adult household member with the disqualifying background check result changes residence no later than fifteen (15) calendar days after receipt of notice from the Cabinet.</p> <p>Maintain a written record for future reference of when the notification was received from the Cabinet and details on when the adult household member completed relocation. The adult in the home who has been determined to have a disqualifying background check result may request an Informal Review or Rehabilitative Review. Directions and timelines for this process are found on page 3 of the Waiver Agreement (DCC-500). Until the results of the review have been determined, the adult household member may reside in the home but must be under the direct supervision of the certified family child care provider and may not be alone with children.</p>
<b>Regulated Child Care Survey Method</b>	Review KARES to determine if there is an ineligible staff/adult in the home. Interview to determine if the staff member has requested an informal/rehabilitative review. Review documentation/KARES to determine the date of notification to ensure relocation occurred within specified timeframes.

<b>Title</b>	Renewal
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 3.</b> Renewal of Certification.</p> <p>(2) A family child care home provider shall submit one (1) month prior to expiration of the provider's certification:</p> <p>(a) A completed OIG-DRCC-04, Certified Family Child-Care Home Renewal Form;</p> <p>(b) A nonrefundable renewal fee of ten (10) dollars every two (2) years pursuant to KRS 199.8982(1)(b);</p> <p>(c) A physician's statement documenting that the family child care home provider's health is satisfactory for continued operation of a family child care home; and</p> <p>(d) Proof that the family child-care home provider continues to meet the minimum requirements specified in Sections 2, 3, and 10 through 19 of this administrative regulation;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The renewal of certification is completed every two (2) years.</p> <p>The OIG-DRCC-03 is the Certification Application. The provider should check the box for Renewal Year and complete all information required on the form. Page 4 of the application contains a checklist to help you ensure you have gathered all required documentation.</p> <p>Here are some helpful hints:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Section #1: Record the e-mail address. Be sure it is a valid address that can be used for a long period of time. If the provider does not personally use e-mail, perhaps they may have a family member who would be their "e-mail contact" to receive notifications concerning the business. A business name or FEIN # is not required but if they have one you should be sure to write it in the box. Typically, a certified provider simply uses his/her own social security number.</li> <li><input type="checkbox"/> The days and hours of operation should be completed. Requests for changes in operation days and hours should be submitted in writing to DRCC. They cannot change the hours of operation by simply filling out this form or by notifying CCAP of the change.</li> <li><input type="checkbox"/> Section #2: Include the landlord's approval letter if they are renting their residence.</li> <li><input type="checkbox"/> Section #3: All related children that might be present at any time at the certified home should be listed and complete all boxes including their social security numbers. Incomplete applications will not be processed.</li> <li><input type="checkbox"/> Section #4: If an adult eighteen (18) years of age or older resides in the home (residing is defined as "to dwell permanently or for a reoccurring or considerable amount of time") the provider should include their information on the form. This would include, i.e., college students home for the summer, boyfriends who stay over regularly.</li> <li><input type="checkbox"/> Section #5: If the provider has an assistant or substitute, they would complete their information.</li> <li><input type="checkbox"/> Section #6: List all animals.</li> <li><input type="checkbox"/> Section #7: The provider should answer all questions completely. Include the certificate # if applicable.</li> <li><input type="checkbox"/> Sign and date the application.</li> <li><input type="checkbox"/> Make a copy of the application and the Physician's Statement and mail it along with the ten (\$10.00) fee to the address indicated on the last page of the application: Office of the Inspector General – Division of Regulated Child Care 275 E Main Street, 5 E-F Frankfort, KY 40621-0001.</li> </ul> <p>If the provider has questions or need assistance completing the application, they should contact the local Child Care Aware Coach for assistance. The cabinet will conduct an unannounced inspection to ensure that the minimum requirements are maintained.</p>
<b>Regulated Child Care Survey Method</b>	Review of the application and fee submitted to Central Office.

<b>Title #</b>	105
<b>Category</b>	General Administration
<b>Title</b>	Change of Location Notification
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 2.</b> Certification Process.</p> <p>(11) A change of location shall require:</p> <ul style="list-style-type: none"> <li>(a) A ten (10) calendar day notice;</li> <li>(b) A completed OIG-DRCC-03;</li> <li>(c) An inspection of the new home; and</li> <li>(d) Continued compliance with this administrative regulation;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>If the provider plans to move to a new location, they should either 1) mail a written request for an inspection of the home to the Division of Regulated Child Care 275 E Main Street, 5 E-F Frankfort, KY 40621-0001, or 2) fax (502) 564-9350. The request should be submitted at least 10 days prior to relocation. Once the request has been received, DRCC will contact the provider to conduct an inspection of the new home. The provider should have documentation for the following: a zoning certificate for the new location; verification of insurance for the new address; written landlord approval if applicable. The inspection process should be completed prior to moving to the new location. The provider may not care for children at the new location until DRCC has approved it for use.</p>
<b>Regulated Child Care Survey Method</b>	<p>Interview and review documents to determine timeliness. Prior to relocation, the provider should provide notification to DRCC as required and an inspection must be conducted before the new location is approved to operate as a certified family child care home.</p>

<b>Title</b>	Written Plan of Correction
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 4.</b> Statement of Deficiency and Corrective Action Plans.</p> <p>(2) Except for a violation posing an immediate threat, a family child care home shall submit a written corrective action plan to the cabinet or its designee within ten (10) calendar days from receipt of the statement of deficiency to eliminate or correct the regulatory violation;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>A statement of deficiency (SOD) identifies the administrative regulation and a statement of how the regulation was violated. The Cabinet sends the SOD to the family child care home if violations existed during an inspection or investigation. A corrective action plan or plan of correction (POC) is written, signed by the provider and submitted to the cabinet or designee within ten (10) days of receipt of the SOD. The completed Plan of Correction may be mailed, faxed or delivered in person to the regional Division of Regulated Child Care Office.</p> <p>If you would like assistance writing a Plan of Correction, please contact your local Child Care Aware Office.</p>
<b>Regulated Child Care Survey Method</b>	<p>The due date of the POC is noted in KICCS. Failure to return the POC timely results in an additional regulatory violation.</p>

<b>Title #</b>	115
<b>Category</b>	General Administration
<b>Title</b>	Unacceptable Plan of Correction
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 4.</b> Statement of Deficiency and Corrective Action Plans.</p> <p>(6) A family child care home notified of an unaccepted plan shall:</p> <p>(a) Submit an amended plan within fifteen (15) calendar days of notification; or</p> <p>(b) Have its certification revoked or denied for failure to:</p> <ol style="list-style-type: none"> <li>1. Submit an acceptable amended plan; or</li> <li>2. Implement corrective measures identified in the corrective action plan;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>If a Plan of Correction is incomplete or does not satisfy the regulatory requirements, the Division of Regulated Child Care will return the original Plan of Correction in the provider's portal. The family child care home shall make required corrections, print a copy and submit an amended Plan of Correction within (15) calendar days of the letter. The provider must implement the Plan of Correction. The provider must be mindful to write what she/he intends to do. Failure to submit and implement an acceptable corrective action plan will result in revocation or denial of certification. The Cabinet will not review or accept more than three corrective action plans in response to the same statement of deficiencies.</p> <p>If the provider submits the Plan of Correction in writing, it will be returned. The provider will make the required corrections, copy the document and return it to the DRCC Office.</p>
<b>Regulated Child Care Survey Method</b>	Check KICCS to determine if an amended POC has been submitted by the due date. If not, the family child care home should be cited for failure to submit an amended plan timely.

<b>Title #</b>	120
<b>Category</b>	General Administration
<b>Title</b>	Number of Children
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.</p> <p>(2) A provider shall not provide care for more unrelated children than the number authorized on the certificate of operation.</p> <p>(3) A provider shall have an assistant present if the provider cares for more than:</p> <ol style="list-style-type: none"> <li>(a) Four (4) infants, including the provider's own or related infants; or</li> <li>(b) Six (6) children under the age of six (6) years old, including the provider's own or related children;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Family child care homes are certified to care for a total of six un-related children. Note: Related children are his/her children, grandchildren, nieces, nephews, children in legal custody, step-children and siblings under the age of eighteen (18). All other children would be considered unrelated.</p> <p>If a provider cares for more than four (4) infants there must be an assistant present. Whether or not the children are related to the provider.</p> <p>If a provider cares for more than six (6) children under the age of six (6) years, there must be an assistant present whether or not the children are related to the provider.</p>
<b>Regulated Child Care Survey Method</b>	Observe the areas used for child care to determine the number of children receiving care during the visit. Interview the provider to determine if additional children are enrolled. Review children's records to determine the age of the children if an assistant is required. Attendance records will determine if the provider cares for too many children at one time.

<b>Title #</b>	125
<b>Category</b>	General Administration
<b>Title</b>	Total Capacity
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.</p> <p>(4) The maximum number of unrelated children in the care of a certified family child care home provider shall not exceed six (6) at any one (1) time. A provider may care for four (4) related children in addition to six (6) unrelated children for a maximum child care capacity of ten (10) at any one (1) time;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The provider may care for children who are unrelated or children that are directly related (her own children, grandchildren, nieces, nephews, children in legal custody, step-children and siblings under the age of eighteen 18).</p> <p>Related children are only counted in the capacity of six (6) children if they are all under six (6) years of age. For example: based on the ages of the children, a provider may be able to care for as many as six (6) un-related children plus four (4) related children for a total of ten (10) children.</p> <p>Never would there be more than ten (10) children present at a family child care home.</p>
<b>Regulated Child Care Survey Method</b>	Observe the areas used for child care to determine the number of children receiving care during the visit. Interview the provider to determine if additional children are enrolled. Review children's records to determine the age of the children if an assistant is required. Attendance records will determine if the provider cares for too many children at one time.

<b>Title #</b>	130
<b>Category</b>	General Administration
<b>Title</b>	Respite Requirement
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.</p> <p>(5) If a provider operates the in-home child care business for twenty-four (24) consecutive hours, the provider shall:</p> <p>(a) Receive an eight (8) hour period of respite after working sixteen (16) consecutive hours during a twenty-four (24) hour period; and</p> <p>(b) Employ an assistant during the period of respite;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Some family child care homes provide care twenty-four (24) hours each day. To ensure that the family child care home provider has a respite (break), there should be an assistant scheduled for at least an eight (8) hour shift each day. The assistant may be scheduled to work at any time during the twenty-four (24) hour period; i.e., the assistant could be scheduled 10pm-6am while the child care provider and children are sleeping. Be sure the assistant is a fully qualified staff including CPR and First Aid certification if the provider plans to be away from the home at any time.</p> <p>Note: the provider may not use an assistant to cover for her while she works another job.</p>
<b>Regulated Child Care Survey Method</b>	Review hours of operation and interview the provider to determine if an assistant is needed.

<b>Title #</b>	135
<b>Category</b>	General Administration
<b>Title</b>	Assistant required
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.</p> <p>(7) An assistant shall be:</p> <p>(a) Eighteen (18) years of age or older;</p> <p>(b) Under supervision of a provider;</p> <p>(c) Used for providing care in a certified family child care home; and</p> <p>(d) Used in the absence of the certified provider;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	The provider should maintain verification that the assistant is at least eighteen (18) years old (i.e., a copy of their driver's license or birth certificate.) The assistant will work under the direct supervision of the provider. An assistant should be present to assist with care; i.e., if there are more than four (4) infants or more than six (6) children under the age of six (6). If the assistant is left alone at the family child care home, the assistant should be fully qualified, including background checks and certification in CPR and First Aid.
<b>Regulated Child Care Survey Method</b>	Interview to determine if an assistant is employed. Review assistant's personnel file to determine age requirement. Observe and/or interview provider to determine when the assistant is present in the home.

<b>Category</b>	General Administration
<b>Title</b>	Child abuse/neglect investigation
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.</p> <p>(9) If a provider, an assistant, or a member in a provider's household is named as the alleged perpetrator in a child abuse or neglect report accepted by the cabinet in accordance with 922 KAR 1:330, the individual shall be removed from direct contact with a child in care:</p> <p>(a) For the duration of the investigation; and</p> <p>(b) Pending completion of an administrative appeal process for a cabinet substantiation of child abuse or neglect in accordance with 922 KAR 1:320 or 922 KAR 1:480;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Persons (provider, assistant, family member, any person) who have been identified as an alleged perpetrator in a child abuse and neglect report are not allowed to have direct contact with a child in care (i.e., they should not be at the home during the hours of operation when any child is present.) Once the investigation is complete the person may resume their normal duties at the family child care home, if there is an unsubstantiated finding.</p> <p>If the allegation is substantiated the perpetrator may choose to appeal the finding. During the time of appeal, the alleged perpetrator will not be allowed to have direct contact with a child in care. If the finding of substantiation is upheld, the person should not ever be present at the family child care home during the hours of operation (even when no children are present). If the appeal results in an unsubstantiated finding, the person may resume their normal activities at the family child care home. To ensure the process is complete, the provider should submit a new child abuse and neglect check to the Cabinet for processing.</p>
<b>Regulated Child Care Survey Method</b>	<p>Contact the Department for Community Based Services (DCBS) to verify the individual is named as an alleged perpetrator.</p> <p>Interview to determine the individual's job duties while the investigation is ongoing or pending the outcome of the appeal process.</p> <p>Ask for written notification of the DCBS finding.</p>

<b>Title #</b>	145
<b>Category</b>	General Administration
<b>Title</b>	Alcohol/Controlled Substance/Smoking
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.</p> <p>(10) During hours of operation, a provider and another person in the home shall:</p> <p>(a) Be free of the influence of alcohol or a controlled substance except for use of a controlled substance as prescribed by a physician; and</p> <p>(b) Prohibit smoking or vaping in the presence of children in care;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>During the hours that the family child care is open for business, no one at the home (provider or other person) should consume alcohol or be under the influence of a controlled substance.</p> <p>An exception would be medication (controlled substance) prescribed by a physician. It is important to ensure any side effects do not prohibit the provider from caring for the children or cause a person to interfere with the care of the children.</p> <p>Smoking or vaping should only be allowed in outside designated areas. Smoking or vaping ordinances vary in each community. It is the responsibility of the child care provider to know the laws regarding smoking or vaping in the community to ensure the family child care policy is in compliance. An assistant needs to be present to provide supervision of the children if the provider steps outdoors to smoke or vape. Note: it would be unacceptable for a provider to step outdoors to smoke or vape, leaving the children unattended even if every child is asleep.</p> <p>Smoking or vaping should never be allowed indoors. To help the provider meet the regulatory requirement, encourage them to ensure there is no lingering odor of smoke or vape in the family child care home or on the clothing of the provider or assistant. The provider should ensure that the “designated smoking or vaping area” cannot be viewed by the children in care.</p>
<b>Regulated Child Care Survey Method</b>	Before citing, confirm that the controlled substance(s) was not prescribed to the individual or that alcohol was consumed on the premises during the provider’s operating hours. Observe to ensure that smoking and vaping does not occur in the presence of the children.

<b>Title</b>	Assistant Present in Provider's Absence
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.</p> <p>(11) During a provider's absence, an assistant shall be physically present with a child in care during hours of operation;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	During the hours of operation, the provider or an assistant shall be present to care for the children. Children can never be left at the family child care provider’s home alone for any length of time.
<b>Regulated Child Care Survey Method</b>	Interview to determine if an assistant is used in the provider’s absence. The provider may choose to close and not hire an assistant. This is acceptable.

<b>Title #</b>	155
<b>Category</b>	General Administration
<b>Title</b>	Provider Has No Other Employment
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.  (12) A provider shall: (a) Not be employed outside of the home during regular hours of operation;
<b>Guideline (s) for Child Care Technical Assistance</b>	During the hours of operation, the family child care provider cannot have another job in or out of the home. The provider cannot leave the children in the care of an assistant while they work another job. Based on the hours of operation, it may be possible for the provider to seek employment after the family child care home closes each day or on weekends.
<b>Regulated Child Care Survey Method</b>	Interview the provider to determine if they have other employment. If they do, ensure that they do not work that job during the hours they indicated they provide child care.

<b>Title #</b>	160
<b>Category</b>	General Administration
<b>Title</b>	Health, safety and comfort
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.  (1) A provider shall ensure the health, safety, and comfort of each child;
<b>Guideline (s) for Child Care Technical Assistance</b>	The provider is ultimately responsible to ensure that each child is cared for in a way that protects the child's health and ensures they are safe and comfortable at all times.
<b>Regulated Child Care Survey Method</b>	The certified family child care home provider is responsible for Health/Safety/Comfort of each child. If a concern is not covered in another tag, cite here. When there is a negative outcome, you can double cite, but do so sparingly: Example: A child was left on the playground – supervision will be cited; but you can also cite H/S/C.

<b>Title #</b>	165
<b>Category</b>	General Administration
<b>Title</b>	Overnight Care
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.  (12) If overnight care is provided, a provider or an assistant shall: (a) Remain awake until every child in care is asleep; and (b) Sleep on the same floor level of the home as an infant or toddler;
<b>Guideline (s) for Child Care Technical Assistance</b>	Children who sleep for periods of time in the evening (or overnight) at the family child care home should be supervised until they have all fallen asleep. Once the children are asleep, the provider or assistant may leave the room where the children are sleeping, but should remain on the same floor of the home where infants and/or toddlers are sleeping at all times.
<b>Regulated Child Care Survey Method</b>	Note that this requirement is only for overnight care. Interview the provider to determine if overnight care is provided. If it is, determine where the children sleep, where the provider sleeps and how bed time is handled.

<b>Title #</b>	170
<b>Category</b>	General Administration
<b>Title</b>	Off Premises Requirements
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.  (14) Except for a school-aged child whose parent has given written permission and whose whereabouts are known, a child shall not be permitted off the premises of a family child care home without a caregiver;
<b>Guideline (s) for Child Care Technical Assistance</b>	School age children may be allowed off premises if there is written permission from a parent. It is the responsibility of the provider to know the where-a-bouts of the school age child at all times.
<b>Regulated Child Care Survey Method</b>	Interview and review children's records to determine if school-age children received care in the home. If so, interview to determine if these children are allowed off the premises without the provider. If this occurs review documentation for written permission.

<b>Title #</b>	175
<b>Category</b>	General Administration
<b>Title</b>	Pick-Up Procedure
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.  (16) A child shall be released from a family child care home to: (a) The child's custodial parent; (b) The person designated in writing by the parent to receive the child; or (c) In an emergency, a person designated over the telephone by the parent;
<b>Guideline (s) for Child Care Technical Assistance</b>	In emergency situations, the parent may phone the family child care home and notify the provider of a person who will pick up their child that day.
<b>Regulated Child Care Survey Method</b>	Review documentation, typically the children's records, to determine if the parents have given the names of individuals who may pick up their child from the provider's home.

<b>Title #</b>	180
<b>Category</b>	General Administration
<b>Title</b>	Record Maintenance
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 18.</b> Records.  (6) A certified family child care home provider shall keep all records for five (5) years;
<b>Guideline (s) for Child Care Technical Assistance</b>	It is important to maintain the records at the home for five (5) years. This includes all records, for example: fire drills, attendance records, training, menus, children's enrollment forms, insurance, etc.
<b>Regulated Child Care Survey Method</b>	It is not routine to request to view old records during a typical survey but if an investigation warrants this, the provider should have the records available.

<b>Title</b>	Reports to Cabinet
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 19.</b> Certified Family Child-Care Home Program.</p> <p>The certified family child care home provider shall:</p> <p>(10) Report: (a) The following to the cabinet within twenty-four (24) hours from the time of discovery:</p> <ol style="list-style-type: none"> <li>1. A communicable disease, which shall also be reported to the local health department pursuant to KRS 214.010; </li> <li>2. An accident or injury to a child that requires medical care;</li> <li>3. An incident that results in legal action by or against the family child care home that: <ol style="list-style-type: none"> <li>a. Affects: <ol style="list-style-type: none"> <li>(i) A child in care;</li> <li>(ii) The provider;</li> <li>(iii) An assistant; or</li> <li>(iv) A member of the provider's household; or</li> </ol> </li> <li>b. Includes the provider's discontinuation or disqualification from a governmental assistance program due to fraud or abuse of that program;</li> </ol> </li> <li>4. An incident involving fire or other emergency, including a vehicular accident when the provider is transporting a child receiving child care services; or</li> <li>5. A report of child abuse or neglect that: <ol style="list-style-type: none"> <li>a. Has been accepted by the cabinet in accordance with 922 KAR 1:330; and</li> <li>b. Names the alleged perpetrator as the <ol style="list-style-type: none"> <li>(i) Provider</li> <li>(ii) Provider's assistant; or</li> <li>(iii) Member of the provider's household;</li> </ol> </li> <li>(b) The death of a child to the cabinet within one (1) hour;</li> <li>(c) Temporary or permanent closure as soon as practicable to the cabinet and the parent of a child in the family child-care home; or</li> <li>(d) A child care staff member meeting a disqualifying criterion or background check result in accordance with 922 KAR 2:280;</li> </ol> </li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<ul style="list-style-type: none"> <li>• The family child care provider must report to the cabinet (DRCC) within twenty-four (24) hours. Reporting may be done by phone, fax or hand written note delivered to the regional DRCC Office in person.</li> <li>• A list of all local health departments and their contact information can be found on the Kentucky Department for Public Health webpage. <a href="https://chfs.ky.gov/agencies/dph/dafm/Pages/lhd.aspx">https://chfs.ky.gov/agencies/dph/dafm/Pages/lhd.aspx</a></li> <li>• It is important to check with the local health department to verify which communicable diseases require reporting.</li> <li>• Medical care is care administered by a licensed or certified health care professional. If a child is injured at the home or if an injury is discovered while a child is in attendance, it must be reported.</li> <li>• Legal action refers to both criminal and civil actions (lawsuits). The provider must report any legal actions by or against the family child care home that affects a child, the provider, the assistant or a member of the household. If the provider loses any government assistant due to fraud or abuse of the program, the provider must report that.</li> <li>• In addition, the provider must report all of the following: An incident involving fire or other emergency is defined as any time the child care center needs to call 911 or similar emergency services.</li> <li>• If the provider is transporting children and an accident occurs a report must be filed.</li> <li>• If the provider decides to close the home (temporary or permanent) he/she must report the date (s) of the closure.</li> <li>• Any allegation of suspected abuse or neglect involving a provider, employee, volunteer or person who would be present at the child care center when the children are in care.</li> </ul> <p><b>(Remember, all of the above must be reported to the cabinet or the Division of Regulated Child Care within twenty-four (24) hours from the time of discovery.)</b></p>
<b>Regulated Child Care Survey Method</b>	Review of records and interview to determine if these items have been reported within twenty-four (24) hours of discovery.

<b>Category</b>	General Administration
<b>Title</b>	Revocation – Falsification
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 8.</b> Revocation.</p> <p>(1) A family child care home provider’s certification shall be revoked if a provider: (a) Knowingly misrepresents or submits false information on the application or other form required by the cabinet or its designee;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	The provider must ensure that all documents and information presented to the Cabinet are true and honest. Two examples to further understanding: 1) All adults who reside in the home must be listed on the application. Omitting the name of an adult who resides in the home is an example of submitting false information. 2) The insurance document presented to verify liability coverage must be current and in effect. Presenting a document from a policy that expired would result in revocation of the certification.
<b>Regulated Child Care Survey Method</b>	When reviewing documentation any questionable documents should be verified.

<b>Title #</b>	195
<b>Category</b>	General Administration
<b>Title</b>	Revocation - Fraud and DPOC
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 8.</b> Revocation.</p> <p>(1) A family child care home provider's certification shall be revoked if a provider:</p> <p>(g) Is placed on a directed plan of correction more than two (2) times in a three (3) year period; or</p> <p>(h) Has been discontinued or disqualified from participation in:</p> <ol style="list-style-type: none"> <li>1. The Child Care Assistance Program established by 922 KAR 2:160, including an intentional program violation in accordance with 922 KAR 2:020; or</li> <li>2. Another governmental assistance program due to fraud, abuse, or criminal conviction related to that program;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	If the certified family child care provider is placed on a Directed Plan of Correction more than two (2) times in any three (3) year period, the certification will be automatically revoked. The Division of Regulated Child Care will be notified by the Cabinet and the child care certification will be revoked if the child care provider is disqualified from one of the government programs; i.e., CCAP or Food Program.
<b>Regulated Child Care Survey Method</b>	This is a function of central office in Frankfort.

<b>Title #</b>	200
<b>Category</b>	Provider Requirements
<b>Title</b>	Recognize symptoms of illness/provide first aid
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(8) A provider and an assistant shall:</p> <ul style="list-style-type: none"> <li>(a) Be able to recognize symptoms of childhood illnesses;</li> <li>(b) Be able to provide basic first aid;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	Basic childhood symptoms of the common cold or an ear infection as well as more serious conditions such as asthma symptoms; allergic reactions. The provider should have knowledge of first aid and be able to apply the appropriate care in an emergency situation.
<b>Regulated Child Care Survey Method</b>	This is typically not cited during a renewal or annual survey and would only be addressed during a complaint investigation regarding illness or first aid issues.

<b>Title #</b>	205
<b>Category</b>	Provider Requirements
<b>Title</b>	Protect from abuse/neglect
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(8) A provider and an assistant shall:</p> <ul style="list-style-type: none"> <li>(c) Maintain a child care program that assures affirmative steps are taken to protect children from abuse or neglect pursuant to KRS 600.020(1);</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>DCBS (Protection &amp; Permanency) determines abuse and/or neglect thru investigation. Definitions of Physical Abuse: This is infliction of injury, other than by accidental means, on a child by another person. Forms of physical abuse may be: hitting, biting, beating, shoving, burning, pulling of hair, or other non-accidental methods of causing bodily harm to a child would be covered under this definition.</p> <p>Sexual abuse: Refers to sexual assault or exploitation of a minor by an adult, or between two (2) children when one (1) of the children is significantly older or there is a significant power differential between the children, or when coercion is used. Often included in this definition is touching of the breast, genitals, or buttocks of a child, penetration of the anus or vagina with an object, fellatio (oral sex on a male), cunnilingus (oral sex on a female), prostitution, exploitation or involvement of child in pornography.</p> <p>It is the job of the family child care provider to ensure that no child is subjected to any form of abuse or neglect.</p>
<b>Regulated Child Care Survey Method</b>	This can only be cited based on a DCBS substantiated finding of abuse or neglect after all due processes have been exhausted.

<b>Title #</b>	210
<b>Category</b>	Provider Requirements
<b>Title</b>	Confidentiality of Children's Records
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 18.</b> Records.  (2) A certified family child care home provider shall maintain the confidentiality of a child's records;
<b>Guideline (s) for Child Care Technical Assistance</b>	The family child care home should ensure the records of children (including but not limited to: allergies, medical history, identification information, immunization certificates, accident/incident reports, conferencing reports and financial information such as recipients of subsidy/CCAP) are maintained in a way that only qualified and authorized staff and representatives of the cabinet have access to the information. In addition, the family child care provider and the assistant must not verbally share information regarding a child with another parent or person outside the home. With written permission from a parent, life threatening health information (i.e. peanut allergies) for a child can be posted in clear view for all to see.
<b>Regulated Child Care Survey Method</b>	Cite if a child's confidential information is posted or available for others to see. This includes a child's allergy information. This may also include staff verbally sharing information regarding a child with another parent or someone outside of the child care facility. Life threatening health information for a child can be posted, with written permission from a parent. Cite if information about a child or a child's family is shared by the provider or staff.

<b>Title #</b>	215
<b>Category</b>	Provider Requirements
<b>Title</b>	Reporting Abuse/Neglect
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 18.</b> Records.  (4) A certified family child care home provider shall: (a) Report an incident of suspected child abuse or neglect pursuant to KRS 620.030(1);
<b>Guideline (s) for Child Care Technical Assistance</b>	The family child care provider and/or assistant should be instructed to report all suspected abuse or neglect of a child to the proper authorities. Information should be readily available outlining what information may be needed to complete the report and what number they should call to report the alleged incident. Certified family child care home providers should make a report of suspected abuse or neglect to DCBS at 1 (877) 597-2331. In case of an emergency, dial 911 first. Non-emergency reports may be made online at: <a href="https://prd.chfs.ky.gov/ReportAbuse/home.aspx">https://prd.chfs.ky.gov/ReportAbuse/home.aspx</a> . After notification to DCBS, it is recommended that the child care provider should notify their local Division of Regulated Child Care office to report the incident of abuse or neglect. Notification can be made by phone, fax, e-mail or may be a hand delivered written statement.
<b>Regulated Child Care Survey Method</b>	This is typically not addressed during a recertification or annual survey. However, if an incident report is observed or the provider discusses a situation where s/he suspected child abuse/neglect, ask the provider if a report was made to DCBS. A follow-up call to DCBS may be made to ensure this was done. Typically, this will be addressed during a complaint investigation.

<b>Title #</b>	220
<b>Category</b>	Provider Requirements
<b>Title</b>	Cabinet access
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 18.</b> Records.  (4) A certified family child care home provider shall: (b) Provide the cabinet access and information in the completion of the investigation pursuant to KRS 620.030(4);
<b>Guideline (s) for Child Care Technical Assistance</b>	Cabinet designees (i.e., representatives from DRCC, DCBS, Special Investigators) are not required to give prior notice to enter the family child care home, interview staff and access records during operating hours. The provider or assistant should not interfere with the investigation; i.e. deny access to children, areas of the certified family child care home, written records or withhold any information.
<b>Regulated Child Care Survey Method</b>	KRS 620.030 refers to the reporting of suspected child abuse. This is typically addressed during a complaint investigation that is also being investigated by DCBS. If the provider is not allowing access to information, etc. notify the RPM or HSSV for direction.

<b>Title #</b>	225
<b>Category</b>	Provider Requirements
<b>Title</b>	Information to Parents
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 19.</b> Certified Family Child-Care Home Program.  The certified family child care home provider shall: (2) Make available a copy of the certification standards to each parent; (3) Provide each parent with the name, address, and telephone number of the cabinet for the purpose of registering a complaint if the parent believes the family child care home provider is not meeting the standards;
<b>Guideline (s) for Child Care Technical Assistance</b>	Provide documentation to each parent. Or, the provider may place a copy (clearly labeled Child Care Home Regulations) and store it in an area that parents regularly have access to; i.e., next to the sign in and out attendance record. In addition, the provider must provide each parent with the name, address and phone number of the cabinet. This may be included in the parent handbook, or posted on a parent information board.  The complete copy of the Family Child Care Home Regulations provided for parents and the required name, address and phone number of the local DRCC (cabinet) office must be visible and accessible.
<b>Regulated Child Care Survey Method</b>	The provider is not required to print and distribute the regulations to each parent. A copy must be available to parents who wish to view them. Contact information for the cabinet must also be available to parents but does not have to be distributed to each individual parent.

<b>Title #</b>	230
<b>Category</b>	Provider Requirements
<b>Title</b>	Access to Home
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 19.</b> Certified Family Child-Care Home Program.</p> <p>The certified family child care home provider shall:  (5) Allow a parent, the cabinet, the cabinet’s designee, or another agency with regulatory authority access to the family child care home at any time a child is in care;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Parents are not required to give prior notice in order to gain access to their enrolled child during operating hours. Cabinet designees are not required to give prior notice to enter the family child care home during operating hours.</p> <p>The family child care home should not deny access to any area of the home used for the child care business during any time a child is in care.</p> <p>The safety of each child is important so it may be necessary for the provider to implement a system to accompany parents and guardians as they move through the area where the child care business is located.</p> <p>In addition, the child care home provider must allow a parent, the cabinet, the cabinet’s designee or another agency with regulatory authority access to the family.</p> <p>Note: during the initial survey the child care provider will designate the areas of the home to be used for the child care business. The provider should draw a floor plan of the space/rooms in the home used for their business. This will indicate the only areas of the home where children will be allowed access. During future surveys – this is the space that will be inspected.</p>
<b>Regulated Child Care Survey Method</b>	If the provider is caring for children, they are required to allow these individuals access to the areas of the home used for child care.

<b>Title #</b>	235
<b>Category</b>	Provider Requirements
<b>Title</b>	Parent/Family Activity
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 19.</b> Certified Family Child-Care Home Program.  The certified family child care home provider shall: (8) Coordinate at least one (1) annual activity involving parental or family participation;
<b>Guideline (s) for Child Care Technical Assistance</b>	The provider should keep something to verify that an activity was conducted; i.e., photo's, invitations, agendas. These documents also serve as great marketing items to new families who would like to learn more about your family child care home. The family child care home can determine what type of annual (yearly) activity would work best for their families, parents and children. For example: a child care home who cares for children of working parents would want to plan something after work or on weekends and avoid having parent take off work to attend. Part time programs have more flexibility in scheduling events. Cost is also a consideration. Family and parent events could include for example: an Open House, a reading night, a cook out, a playground cleanup day or a holiday party.
<b>Regulated Child Care Survey Method</b>	Review documentation of these activities. This documentation can include newsletters, family activities at the home or other locations and any other activity that includes parental or family participation.

<b>Title</b>	New Adult
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 2.</b> Certification Process.</p> <p>(6) If an adult other than an adult listed on the initial application begins living in the provider's home, present during the hours of operation or having unsupervised contact with a child in care, the adult shall submit to background and health checks within thirty (30) calendar days of residence within the household;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>For any adult who moves into the home or a child in the home who has turned eighteen (18) years of age must complete a background check through KARES/NBCP and obtain a health professional's statement documenting that the adult is free of active tuberculosis.</p>
<b>Regulated Child Care Survey Method</b>	<p>Interview and observe to determine all adults living in the home and present with the children are in compliance.</p>

<b>Title #</b>	260
<b>Category</b>	Provider Records
<b>Title</b>	Orientation/training plan
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 2.</b> Certification Process.</p> <p>(9) Within three (3) months of submission to the cabinet of a complete OIG-DRCC-03, an applicant shall:</p> <p>(a) Demonstrate completion of six (6) hours of cabinet-approved training in accordance with KRS 199.8982(1)(a)6; and</p> <p>(b) Develop and implement a written plan for obtaining nine (9) hours of annual cabinet-approved training as required in Section 10(1) of this administrative regulation;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Orientation training, a six (6-hour) course, is required for all family child care staff working with children. Orientation training must be taken in the first three (3) months following the issuance of certification and may be taken online or in person. The online class may be taken at:</p> <p><a href="http://www.kentuckypartnership.org/ecool.aspx">http://www.kentuckypartnership.org/ecool.aspx</a></p> <p>If an assistant or provider has previously taken orientation training, check the ECE-TRIS record to ensure that it appears on that record. If not, have the assistant or provider bring a copy of the orientation certificate to the family child care home that can be included in the staff records. If an assistant or provider has “proof” that they have already completed orientation training, they are not required to take the class again. Completed orientation training (recently taken or many years ago) counts as six (6-hours) of training during the staff person’s first year of employment. In addition, the provider must put in writing their plan to complete the required nine (9) hours of training annually.</p> <p>An example: for a new assistant or provider the following plan might be written and implemented: “The provider and/or assistant will complete the six (6) hours cabinet approved Orientation Training online within the first three months of employment.</p>
<b>Regulated Child Care Survey Method</b>	<p>Review documentation on ECE-TRIS to determine if the provider has taken the training. The six (6) hours of orientation training may be obtained prior to the submission of the application but must be taken in the first three (3) months from the submission of the complete OIG-DRCC-03 to the cabinet. The orientation training must be the cabinet approved training curriculum. This curriculum has been updated/changed over time, however providers who received an older orientation training are not required to take the new curriculum. The written plan may include goals and a plan to complete orientation, child development trainings, and other trainings/classes that will assist the provider with professional growth.</p>

<b>Title</b>	Diagnosed Special Needs
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(2)(a) Care for a child with a special need shall be consistent with the nature of the need as documented by the child's health professional;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	The family child care home should obtain written information regarding a child with a special need. This information could be provided by a therapist, physician, or health professional. The provider and/or assistant should be aware of a treatment/action plan for a child with special needs and should attempt to incorporate care plans while the child is at the child care home.
<b>Regulated Child Care Survey Method</b>	Observe the care provided to a child with a special need and review the child's file to determine compliance with a health professional's recommendations.

<b>Title</b>	Television/Video Viewing
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(3) Television or video viewing by a child shall be limited to:  (a) Two (2) hours daily;  (b) The planned program activities; and  (c) Developmentally appropriate child-related content, as designated by standardized content guidelines;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Electronic viewing (i.e., computer, hand held video game or television) may be used by an individual child up to two (2) hours each day.</p> <p>The viewing activity must be designed as an educational tool. This should be reflected on the planned program activities (lesson plan). Leaving the television on during the day in the background or for non-educational purposes is not acceptable.</p> <p>The program must be appropriate and may not include any violence, adult content or inappropriate language. This includes personal games or equipment brought from home.</p>
<b>Regulated Child Care Survey Method</b>	<p>Observe the viewing material to determine appropriateness, timeframes and education usage. Review the planned program of activity to verify the television or video is used as a part of the child's programming.</p> <p>Note: a home may have non-child videos but unless it is mentioned on the planned program or the children are observed viewing or listening to it, the regulation is not violated.</p>

<b>Title #</b>	290
<b>Category</b>	Programming
<b>Title</b>	Infant sleep position
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(7) An infant shall sleep and nap on the infant's back unless the infant's health professional signs a waiver that states the infant requires an alternate sleeping position;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>All infants shall be placed on their back to sleep. If an alternate sleeping position is required a health professional must sign a waiver indicating the position and any additional instructions regarding positioning. The waiver or written request from the health professional should be kept on file for review.</p> <p>If a positioning device or monitor is needed, the infant's health professional must put the request for an alternate position in writing. This would include if the infant is to be placed in a swing or bouncy seat for sleep, or if the head of a mattress should be raised. The child care provider should keep the written request from the health professional on file for review.</p> <p>Older infants who can roll over on their own should be allowed to do so.</p>
<b>Regulated Child Care Survey Method</b>	<p>If a sleeping infant is observed in a position other than on the infant's back, interview and review the child's file to determine if the child is of age to roll over on its own or a health professional's waiver was provided. This tag may be cited if infants are observed sleeping in swings or other devices, however consider that infants frequently go to sleep and the provider may not be able to move them to a bed promptly. Observe and interview to determine how long the child is/was sleeping in the equipment.</p>

<b>Title</b>	Rest time
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.  (8) Rest time shall be provided for each child who is not school-age and who is in care for more than four (4) hours;
<b>Guideline (s) for Child Care Technical Assistance</b>	With the exception of school agers, all children who attend care more than four (4) hours in a day must have a rest time. (Note: school age children are not required to have a rest time; however, they may rest as needed.)
<b>Regulated Child Care Survey Method</b>	Interview the provider and/or review children's files to determine the ages of the children in care. Interview the provider and review daily schedule and the children's attendance sheet to determine rest period compliance, if not observed.

<b>Title #</b>	300
<b>Category</b>	Programming
<b>Title</b>	Rest Period
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.  (10) Rest time shall not exceed two (2) hours for a preschool-age child unless the child is attending nontraditional hours or is sick;
<b>Guideline (s) for Child Care Technical Assistance</b>	A regular rest period during the day is required for preschool age children. This period should not exceed two (2) hours. (Note: this requirement is specific to preschool age children and does not include infants and toddlers who may rest longer as needed or for children who may not be feeling well.) The provider should ensure that the scheduled rest time for preschool children is indicated on the written daily schedule.
<b>Regulated Child Care Survey Method</b>	Preschoolers should rest no more than two (2) hours during traditional hours. Observe nap time and/or review the daily schedule to determine the scheduled nap time for compliance.

<b>Title #</b>	305
<b>Category</b>	Programming
<b>Title</b>	Curriculum Areas
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(13) A certified family child care home shall provide a daily planned program:  (d) That offers a variety of creative activities, such as:</p> <ol style="list-style-type: none"> <li>1. Art or music;</li> <li>2. Math or numbers;</li> <li>3. Dramatic play;</li> <li>4. Stories and books;</li> <li>5. Science or nature;</li> <li>6. Block building or stacking;</li> <li>7. Tactile or sensory activity;</li> <li>8. Multi-cultural exposure.</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Activities need to be available to the children throughout the day.  Examples include:</p> <p>*Art - paint, brushes, markers, chalk, crayons, colored pencils scissors, paper of various colors, play dough clay, and glue sticks</p> <p>*Music – recorded music, musical instruments and singing/dancing</p> <p>*Math or numbers – counting, sequencing, comparison, sorting and written numbers</p> <p>*Dramatic play – pretend play; i.e., housekeeping area with a kitchen set complete with pretend food, pots, pans, table, chairs and dishes; a nursery set where the children can care for their baby dolls; a puppet theatre; store; dress up; doctor's office; restaurant or veterinarian's office.</p> <p>Stories and books - selection of developmentally appropriate books; felt boards books on tape; interactive story telling</p> <p>Science or nature – activities and materials used to encourage exploration, experimentation and observation. Learning areas typically include magnets, scales, magnifying glasses, living objects</p> <p>Block building or stacking – this includes wooden blocks, foam blocks, cardboard hollow blocks</p> <p>Tactile or sensory – sand and water table, different textures, discovery box</p> <p>Multi-cultural exposure - dolls with a variety of skin tones, songs and dances from another country, count to ten (10) in a new language, menus that features foods from another country.</p>
<b>Regulated Child Care Survey Method</b>	<p>During the inspection review the written planned program and then observe the actual programming being provided to the children to determine if it is developmentally appropriate for the children being served.</p> <p>The daily planned program should be written and followed. However, adjustments may be made to the schedule and/or planned activities to best meet the needs of the children. For example, the provider may provide additional outdoor time on a sunny day or an activity may be cut short and replaced if the children do not seem interested. If it is unclear during the inspection, it may be necessary to interview the staff to gather more information.</p> <p>Observe the materials, toys and equipment to verify they are available to provide a variety of creative activities. Interview the provider to determine if additional materials are available and when they are used. For example, children may go to the kitchen for art each day: thus, these materials may not be observed in the main child care area.</p>

<b>Title</b>	Self-help procedures
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(13) A certified family child care home shall provide a daily planned program:</p> <p>(d) That offers a variety of creative activities, such as:</p> <p>11. An opportunity for a child to:</p> <p>c. Practice developmentally appropriate self-help procedures in respect to:</p> <p>(i) Clothing;</p> <p>(ii) Toileting;</p> <p>(iii) Hand-washing; and</p> <p>(iv) Eating.</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The provider should plan adequate time for activities based on the age and development level of the children in their class.</p> <p>Basic skills such as putting on one's coat, fastening pants or a belt after toileting, using the soap and paper towel dispenser when hand washing and learning to use utensils during meals or hold their own bottle are important skills that must be practiced and developed over time.</p> <p>The provider should be ready to assist and encourage the child as needed when learning new skills.</p>
<b>Regulated Child Care Survey Method</b>	Review planned program and observe the materials, toys and equipment in the area to determine that self-help procedures are practiced.

<b>Title #</b>	320
<b>Category</b>	Programming
<b>Title</b>	Corporal Discipline
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(15) Use of corporal physical discipline shall be prohibited pursuant to KRS 199.896(18);</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The child care center must ensure that no one physically hurts a child in care. This includes for example: pinching, hitting, swatting, thumping, smacking, spanking, etc.</p> <p>In addition, children should not be restrained in high chairs or cribs as a means of discipline.</p>
<b>Regulated Child Care Survey Method</b>	<p>Review the written discipline policy and observe staff to determine compliance. Typically, this is addressed in a complaint investigation.</p> <p>Remember that according to KRS 199.896(18), corporal physical discipline refers to intent to inflict physical pain. It is very difficult to prove intent to inflict physical pain. Therefore, consult with the RPM/HSSV before citing corporal physical discipline.</p>

<b>Title #</b>	325
<b>Category</b>	Programming
<b>Title</b>	Parent Communication
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 19.</b> Certified Family Child-Care Home Program.</p> <p>The certified family child care home provider shall:</p> <p>(6) Communicate with each child's parent about the child's:</p> <ul style="list-style-type: none"> <li>(a) Development;</li> <li>(b) Activities;</li> <li>(c) Likes; and</li> <li>(d) Dislikes.</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The certified family child care home provider must have a system to communicate with the parent daily. Some providers like to have a written daily "note" while others may have time to greet each parent and give a verbal report.</p> <p>Information that must be shared with the parent includes; how the child is doing developmentally. This could be a report on how they are doing pulling up, crawling, toilet training or recognizing shapes. Parents need to know what activities are planned or have been implemented to ensure their child has a successful experience. For example: if parents know the words to the songs children sing during the day, they can sing along with their child on the way home. Or perhaps share the name of the book that is read so they can discuss the story with their child. Inform the parent of their child's likes and dislikes. This could include what foods they like, the toys they like to play with, and the activities they participated in during the day.</p>
<b>Regulated Child Care Survey Method</b>	The provider does not have to keep any documentation regarding this. Typically, this is cited as part of a complaint investigation.

<b>Title</b>	Free from risk of harm
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(1) A provider's home and each play area used for child care shall:</p> <p>(a) Be free from risk of harm in accordance with the requirements of this administrative regulation;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Each family child care home presents regulatory concerns that are unique to that home. It is the responsibility of the child care provider to ensure the home, and the areas where children play and are cared for, are safe with steps taken to remove anything which may cause harm to a child.</p> <p>Examples to consider might include: assuring light bulbs are constructed of shatter proof material or covered; all equipment malfunction and damage to the home should be corrected or repaired immediately; ensure that the children are protected from windows, doors, stoves, heaters, furnaces, pipes and stairs. For example: a barrier should be in place to protect children who crawls from a door as it opens and closes. A barrier should be in place to prohibit a toddler from accessing a stairwell. Older homes may contain heating units located in rooms where children are present that become hot to touch. A barrier should be in place to prevent a child from touching the hot heating unit. Children should not have access to stoves that are in use. If there is a play structure in the yard the provider should ensure that it is safe for the children.</p>
<b>Regulated Child Care Survey Method</b>	<p>At each annual and renewal survey, a diagram is obtained to indicate the areas used for child care. These areas are to be inspected for any risks of harm to the children.</p> <p>If the provider has a play area, it should also be inspected for risks of harm to the children. The regulations do not require a fall zone around equipment on the playground but if a risk is observed, it may be cited here.</p>

<b>Title</b>	Heat/Cool/Light/Ventilation
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(1) A provider's home and each play area used for child care shall:</p> <p>(b) Have adequate:</p> <ol style="list-style-type: none"> <li>1. Heating and cooling;</li> <li>2. Light; and</li> <li>3. Ventilation.</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The home and each area where children play or are cared for should be heated or cooled as needed, well lit and ventilated.</p> <p>If the heating unit or air conditioning unit is in disrepair, it may be necessary to close until repairs can be completed.</p> <p>Light bulbs should be replaced as needed to ensure rooms are well lit.</p> <p>The home must be ventilated. The provider must keep the windows or doors open to the outdoors, to ensure there are screens in place to prevent bugs and vermin from entering the home.</p>
<b>Regulated Child Care Survey Method</b>	<p>Observe the areas used for child care to ensure adequate heating, cooling, light and ventilation.</p> <p>Interview the provider about heating and cooling if they are not in use at the time of the survey to determine compliance.</p>

<b>Title #</b>	340
<b>Category</b>	Premises
<b>Title</b>	Floor Level Requirements
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(2) Each floor level used for child care shall have at least one (1):</p> <ul style="list-style-type: none"> <li>(a) Unblocked exit to the outside;</li> <li>(b) Smoke detector;</li> <li>(c) Fire extinguisher; and</li> <li>(d) Carbon monoxide detector if the home: <ul style="list-style-type: none"> <li>1. Uses fuel burning appliances; or</li> <li>2. Has an attached garage.</li> </ul> </li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Family child care homes are located in a variety of locations, i.e., basements, upper floors, etc.</p> <p>There should be one unblocked exit on each floor that is used for child care that leads directly to the outside. Children and staff must be able to escape through the exit.</p> <p>Example: If the only bathroom is located on the second (2<sup>nd</sup>) floor of the home, there must be at least one exit to the outdoors. Children and the provider must be able to step outside to the ground or to a balcony that has stairs to the ground from that floor of the home. Smoke detectors must be on each floor of the home and must be checked frequently to ensure they are in working order. The fire extinguisher must be kept in a place that is easily accessible on each floor of the home in case of an emergency. If the home has gas appliances (water heater, dryer, stove, etc.) or if there is an attached garage, carbon monoxide detectors must be installed on each level of the home.</p>
<b>Regulated Child Care Survey Method</b>	<p>Observe to ensure that these items are on each floor level used for child care.</p> <p>Fuel burning appliances include wood stoves and fire places.</p>

<b>Title</b>	Harmful Items Inaccessible
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(3) The areas of the home that are accessible to children in care shall be free from items harmful to children including the following items</p> <ul style="list-style-type: none"> <li>(a) Cleaning supplies, poisons, paints, and insecticides;</li> <li>(b) Knives, scissors, and sharp objects;</li> <li>(c) Power tools, lawn mowers, hand tools, nails, and other equipment;</li> <li>(d) Matches, cigarettes, lighters, combustibles, and flammable liquids;</li> <li>(e) Plastic bags; and</li> <li>(f) Litter and rubbish.</li> </ul> <p>(4) Alcohol shall:</p> <ul style="list-style-type: none"> <li>(a) Not be consumed by any person on the certified family child care home's premises during hours of operation; and</li> <li>(b) Be kept out of reach and sight of a child in care;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Items should be stored so a child does not have access to them. This system will vary based on the age and developmental level of the group. For an infant or toddler a cabinet or shelf out of their reach or a closed door may be an acceptable way to store most items. A tall trash receptacle or one with a lid may prevent the mobile children from accessing the litter and rubbish. For a preschool child or school age child, inaccessible means a locked cabinet or closet.</p> <p>Read all product labels to determine if they should be stored “out of the reach of children.” The provider should inspect the kitchen area and child care areas to ensure that all sharp objects are locked away from children.</p> <p>All lawn mowers, tools, etc. must be removed from the outdoor play area. If the provider has a storage building, they should put a lock on it to ensure children cannot access the area.</p>
<b>Regulated Child Care Survey Method</b>	<p>Harmful objects and supplies listed in this tag shall be inaccessible to a child. Observe all areas that the children use to determine compliance.</p> <p>Inaccessible is determined by the age and abilities of the children in care at any time</p>

<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(7) An electric fan, floor furnace, or freestanding heater or fireplace shall:</p> <ul style="list-style-type: none"> <li>(a) Be out of the reach of a child; or</li> <li>(b) Have a safety guard to protect a child from injury;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	Electric fans, floor furnaces and freestanding heaters or a fireplace may be used to ensure the home is comfortable. Caution must be taken to ensure the children cannot come in direct contact with any of these items. The provider may need to re-arrange furnishings to block access, put up a gate or safety guard. Also, be sure that electrical cords from these units are not accessible.
<b>Regulated Child Care Survey Method</b>	<p>Observe the areas used for child care to determine that the items listed are not within reach of children. If these items are accessible, observe and/or interview the provider to determine that proper measures have been taken to prevent injury of a child.</p> <p>If a safety guard is used on heating equipment, ensure the guard is not hot to the touch while in use.</p>

<b>Title</b>	35 Square Feet
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(12) Exclusive of the bathroom and storage area, an indoor area, including furnishings, used for child care shall contain at least thirty-five (35) square feet per child for:</p> <ul style="list-style-type: none"> <li>(a) Play; and</li> <li>(b) Activities that meet the developmental needs of the children in care;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>To calculate square footage, multiply the length of the room by the width. Then divide this number by thirty-five (35) to determine the capacity of the room. The capacity is the total number of children that can be in a space at one time. The number of children shall not be rounded up.</p> <p>The child care provider should measure the available space for the child care program to ensure that the space is appropriate for the number of children enrolled in care at the home and make adjustments as needed.</p>
<b>Regulated Child Care Survey Method</b>	<p>Measure all child care areas (except the bathroom and storage areas) to determine a capacity for each room. If the capacity has been determined, and it seems the space is too crowded, re-measure the area.</p> <p>Each room used by the children should be measured during an initial inspection to determine the maximum number of children.</p> <p>When determining the area of the room, do not round up for the number of children.</p>

<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.</p> <p>(1) A toilet room shall:</p> <ul style="list-style-type: none"> <li>(a) Have an adequate supply of toilet paper; and</li> <li>(b) Be cleaned and sanitized daily;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	Check the room daily for adequate supply of toilet paper. Follow product manufacturer's guidelines.
<b>Regulated Child Care Survey Method</b>	Interview the provider to determine when this is done. If the toilet room is dirty, tag 400/425 may be the more appropriate place to cite if the provider indicates the room is cleaned and disinfected each evening.

<b>Title #</b>	420
<b>Category</b>	Premises
<b>Title</b>	Sink
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements. (2) A sink shall be; (a) Located near or in close proximity to toilets; (b) Equipped with hot and cold running water that allows for hand washing; (c) Equipped with hot water at a minimum temperature of ninety (90) degrees Fahrenheit and a maximum of 120 degrees Fahrenheit; (d) Equipped with liquid soap and single use, disposable hand drying material; (e) Equipped with an easily cleanable, covered waste receptacle; and (f) Near or in close proximity to a changing area used for infants and toddlers;
<b>Guideline (s) for Child Care Technical Assistance</b>	After toileting and/or diapering, a staff or child should be able to move directly to the sink for hand washing without touching anything; i.e., a door knob or gate. Use a thermometer to test the hot and cold water to ensure that it is a minimum of 90 degrees Fahrenheit and maximum of 120 degrees Fahrenheit. Liquid soap is required. Bar soap is not acceptable. A hand drying blower or single use paper towel must be provided for use. A trash can must be available for disposal of paper towels or diapers. Staff may use wipes to clean the hands of children enrolled in an infant room (up to twelve (12) months) instead of washing with liquid soap and running water.
<b>Regulated Child Care Survey Method</b>	Close proximity does not have a measurement but implies that the two (2) items are near each other. Observe to determine if contamination of other areas will occur as the child/staff leaves the toilet room and before reaching the sink.

<b>Title #</b>	425
<b>Category</b>	Premises
<b>Title</b>	Toilet
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.  (3) Each toilet shall: <ul style="list-style-type: none"> <li>(a) Be kept in clean condition;</li> <li>(b) Be kept in good repair;</li> <li>(c) Be in a lighted room; and</li> <li>(d) Have ventilation;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	Drips and spills should be cleaned up immediately. The bathroom should be free of odor. The toilet should flush easily and completely. The bathroom should be well lit and should have a screened window or working ventilation system.
<b>Regulated Child Care Survey Method</b>	Observe to determine compliance. Be reasonable in assessing cleanliness. If a child has just used the toilet and made a mess or did not flush, observe to see that staff check the cleanliness in a timely fashion.  A screened window can be considered as ventilation.

<b>Title #</b>	430
<b>Category</b>	Premises
<b>Title</b>	Sick Child Area
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.  (7) A quiet, separate area that is easily supervised shall be provided for a child too sick to remain with other children;
<b>Guideline (s) for Child Care Technical Assistance</b>	When providing care to a child who is ill, the provider should have an area that is separate from the other children where an ill child can rest comfortably. The provider must be able to provide supervision and care to the ill child as well as the other children. A separate area could be a cot or mat placed in a corner of the main programming room that would allow the provider to supervise and assist the ill child while providing supervision and programming for well children.
<b>Regulated Child Care Survey Method</b>	Interview to determine sick child protocol, review written procedure is not available or if not observed during inspection. Observe sick child area to ensure the provider can easily supervise the ill child while caring for the remaining children.

<b>Title #</b>	435
<b>Category</b>	Hygienic Practices
<b>Title</b>	Child Handwashing / Hand Sanitizer
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.  (4) A child shall: (a) Wash hands with liquid soap and warm running water: 1. Before and after eating or handling food; 2. After toileting or diaper change; 3. After handling animals; 4. After touching an item or an area of the body soiled with body fluids or waste; and 5. After outdoor and indoor play time; or (b) Use hand sanitizer or hand-sanitizing wipes if liquid soap and warm running water are not available in accordance with paragraph (a) of this subsection. The child shall wash the child's hands as soon as practicable once liquid soap and warm running water are available;
<b>Guideline (s) for Child Care Technical Assistance</b>	It is important that children have the opportunity to practice and develop self-help skills such as hand washing. The provider must supervise and assist each child as needed.  The provider may substitute the use of baby wipes for hand washing for infants up to twelve (12) months instead of the use of liquid soap and running water. Other than infants under twelve (12) months of age, baby wipes and hand disinfectant would substitute for washing hands with liquid soap and running water when warm running water and liquid soap is not readily available. Example may include: assisting a child who wipes his nose while playing outdoors. Hand sanitizer may be used while on the playground. As soon as the provider and child re-enters the home, both would wash their hands with liquid soap and warm running water.
<b>Regulated Child Care Survey Method</b>	An infant's hands may be cleaned with an individual wipe rather than under running water. Once children's hands have been washed prior to a meal, make sure that they are not touching the floor, etc. prior to eating. Hand sanitizer or hand-sanitizing wipes are only used when warm running water and liquid soap are not available.

<b>Title #</b>	440
<b>Category</b>	Hygienic Practices
<b>Title</b>	Adult hand washing
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(5) A provider and an assistant shall:</p> <p>(a) Wash hands with liquid soap and warm running water:</p> <ol style="list-style-type: none"> <li>1. Before and after diapering a child;</li> <li>2. Before and after feeding a child;</li> <li>3. After toileting or assisting a child with toileting;</li> <li>4. After handling animals;</li> <li>5. Before dispensing medication;</li> <li>6. After caring for a sick child;</li> <li>7. After wiping or blowing a child's or own nose; and</li> <li>8. After smoking or vaping; or</li> </ol> <p>(b) Use hand sanitizer or hand-sanitizing wipes if liquid soap and warm running water are not available in accordance with paragraph (a) of this subsection. The provider or assistant shall wash the provider or assistant's hands as soon as practicable once liquid soap and warm running water are available;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Providers who work in rooms where water is not available must have a plan that will allow them access to a hand sink for hand washing.</p> <p>Baby wipes, gloves and hand sanitizer are not a substitute for washing hands with liquid soap and running water. Hand sanitizer may be used in certain situations when warm running water and liquid soap are not immediately available. An example: after assisting a child who is playing outdoors wipe his/her nose. The use of hand sanitizer immediately may satisfy this regulation until the provider and child return indoors where they both can wash their hands with warm running water and liquid soap.</p>
<b>Regulated Child Care Survey Method</b>	Observe to determine hand washing practices are met.

<b>Title #</b>	445
<b>Category</b>	Hygienic Practices
<b>Title</b>	Items not shared
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(6) A provider shall assure that a child does not share:</p> <ol style="list-style-type: none"> <li>(a) Cups;</li> <li>(b) Eating utensils;</li> <li>(c) Wash cloths;</li> <li>(d) Towels; and</li> <li>(e) Toiletry items;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	During meals each child must be provided a drinking cup and eating utensils that are clean and are not shared with another child. Providers who are feeding infants must ensure that utensils are used for one child at a time and cleaned appropriately before being used to feed another child. Each child should have their own items clearly labeled with their name to avoid sharing of items, or items must be laundered after each use.
<b>Regulated Child Care Survey Method</b>	Interview provider for procedure implemented that ensures children are provided individual personal items. Observe provider practices to determine if individual personal items are shared.

<b>Title #</b>	450
<b>Category</b>	Hygienic Practices
<b>Title</b>	Toilet Training
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.  (4) Toilet training shall be coordinated with the child's parent;
<b>Guideline (s) for Child Care Technical Assistance</b>	To ensure successful toilet training should be on the child's developmental level instead of chronological age. A sequential plan should be developed and implemented in a joint effort between child care staff and parents to ensure success.
<b>Regulated Child Care Survey Method</b>	A child's parent shall be in agreement with the provider toilet training the child.

<b>Title #</b>	455
<b>Category</b>	Hygienic Practices
<b>Title</b>	Clean Diapers/Clothing
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.  (4) Toilet training shall be coordinated with the child's parent;
<b>Guideline (s) for Child Care Technical Assistance</b>	Many providers require parents to provide diapers and a change of clothes for the child. The provider must have available diapers and extra changes of clothes for use in case of need. It would be unacceptable for a provider to leave a child in a soiled diaper or wet clothing while waiting for a parent to come with extra clothes and diapers.
<b>Regulated Child Care Survey Method</b>	The provider should have a supply of clean clothing and clean/disposable diapers available. The provider may have a policy requiring parents to provide extra clothing for their child but this does not remove the provider's responsibility to have additional clothing for a child if the parent did not provide one. Observe the supply of clothing, interview the provider to determine compliance.

<b>Title #</b>	460
<b>Category</b>	Hygienic Practices
<b>Title</b>	Soiled Diapers/Clothing
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.  (7) Diapers or clothing shall be: (a) Changed when soiled or wet; (b) Stored in a covered leak proof container temporarily; and (c) Washed or disposed of at least once a day;
<b>Guideline (s) for Child Care Technical Assistance</b>	The clothing should be changed immediately when a child becomes wet. Wet items may be stored in a plastic bag away from the reach of the child. It is recommended that if cloth diapers are used, a container with a tight fitting lid lined with a plastic bag should be used to store the soiled diapers. The soiled cloth diapers must be stored separately from soiled clothes and other waste. At the end of the day, the plastic bag of soiled diapers can be tied and sent home for laundering. The diaper contained should be cleaned and disinfected daily. Soiled diapers should be stored in a covered container. A plan should be implemented to empty the container and take the soiled diapers to the trash daily.
<b>Regulated Child Care Survey Method</b>	Observe and interview to determine compliance if diapers and clothing are changed and stored appropriately and if diapers are disposed of as required.

<b>Title #</b>	465
<b>Category</b>	Hygienic Practices
<b>Title</b>	Diapering not left unattended
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.  (9) If a child is being diapered, the child shall: (a) Not be left unattended;
<b>Guideline (s) for Child Care Technical Assistance</b>	When preparing to change the diaper of a child, the provider should take time to gather all necessary supplies prior to placing the child on the changing table/area. Once the provider has begun the diapering process she/he should never step away and leave the child unattended.
<b>Regulated Child Care Survey Method</b>	Observe a diaper change during the survey. Ensure that staff supervise the child and does not step away from the child.

<b>Title #</b>	470
<b>Category</b>	Hygienic Practices
<b>Title</b>	Diapering Space
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.</p> <p>(9) If a child is being diapered, the child shall:</p> <p>(b) Be placed on a surface that is:</p> <ol style="list-style-type: none"> <li>1. Clean;</li> <li>2. Padded;</li> <li>3. Free of holes, rips, tears, or other damage;</li> <li>4. Nonabsorbent;</li> <li>5. Easily cleaned; and</li> <li>6. Free of items not used for diaper changing;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>If a diapering pad has a crack or tear, the pad should be replaced. It is impossible to clean and disinfect a surface that contains cracks and tears which expose the inner padding. Many times providers store items at the corners of the diaper changing surface; i.e., pens, scissors, markers, toys, thermometers, books. Handling these items during diaper changes contaminates the item. In addition, many of the items are dangerous for a child who is lying on the diaper change table. Larger and older children may be changed on a suitable mat on the floor, or they may stand over a surface that is impervious to moisture, i.e., in a bathroom over a tiled floor. It is unacceptable to change a child directly placed on a bed, sofa or carpeted floor.</p>
<b>Regulated Child Care Survey Method</b>	<p>Observe the diapering surface to determine that if it is clean, padded, not damaged and does not allow absorption. The surface should be cleanable. There should not be items on the diapering surface that are not needed for diapering (example: radios, etc.). If items are observed on the changing area when a child is not being diapered, this may be cited under tag 160 (health, safety and comfort) if the items may be contaminated and used by the children.</p>

<b>Title #</b>	475
<b>Category</b>	Hygienic Practices
<b>Title</b>	Individual Disposable Cloths
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.</p> <p>(10) Unless another cleaning method is authorized by the child's parent or prescribed by a physician, individual disposable washcloths shall be used to thoroughly clean the affected area of a child;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Some children may be allergic or sensitive to the individual disposable washcloths (i.e., baby wipes). If needed, a wet wash cloth may be used to clean a child during diapering. The provider must use the cloth only once and store the used cloth in a container lined with a plastic bag that is stored separately from other wet or soiled items to avoid cross contamination. Written documentation from the child's parent or physician is required if the child requires a wash cloth or another cleaning method instead of a disposable washcloth or wipe.</p>
<b>Regulated Child Care Survey Method</b>	<p>Observe a diaper change if at all possible. Disposable wipes should be used unless another cleaning method is authorized.</p>

<b>Title #</b>	480
<b>Category</b>	Hygienic Practices
<b>Title</b>	Diapering Practice
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 13.</b> Toilet and Diapering Requirements.</p> <p>(11) A provider or an assistant shall disinfect the diapering surface after each child is diapered.</p> <p>(12) If a provider or an assistant wear disposable gloves, the gloves shall be changed and disposed of after each child is diapered;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Disinfecting is the process of destroying or inactivating germs on an inanimate object. Bleach and water (diluted 1/4 - 3/4 C of bleach to one gallon of cool water) is a popular disinfectant for child care providers. The provider needs to follow the directions for disinfecting found on the label for whatever product is selected for use. Providers are not required to wear disposable gloves during a diaper change. If gloves are worn, the gloves must be removed and the provider must wash his/her hands with liquid soap and running water. Gloves must be disposed of after each use.</p>
<b>Regulated Child Care Survey Method</b>	<p>The diapering surface must be disinfected after each diaper change. If staff uses disposable gloves, they must be changed and thrown away after each child is diapered. The regulations do not require a specific disinfectant to be used. A bleach/water solution is acceptable. Any product used to disinfect the changing area should note on the label that it disinfects surfaces.</p>

<b>Category</b>	First Aid/Medication
<b>Title</b>	Medication Locked/Epi Pen
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(1) Medication, including medicine that requires refrigeration, shall be stored in a locked container or area with a lock unless the medication is:</p> <p>(c) An epinephrine auto-injector. In accordance with KRS 199.8951:</p> <ol style="list-style-type: none"> <li>1. An epinephrine auto-injector shall be inaccessible to a child in care;</li> <li>2. A certified family child care home provider shall have training on the administration of an epinephrine auto-injector if the provider maintains an epinephrine auto-injector for a child;</li> <li>3. A certified family child care home shall seek emergency medical care for a child if an auto-injector is administered to a child; and</li> <li>4. A certified family child care home shall report to the child's parent and the cabinet in accordance with subsection (6) of this section and Section 19(10) of this administrative regulation if an epinephrine auto-injector is administered to a child; or</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>This training is only relevant to providers who purchase an Epinephrine Auto-Injector (EPI Pen) to use at the family child care home in case of emergency. The provider must have training on the administration of the EPI Pen. Anaphylaxis and Epinephrine Auto-Injector Training is available online for a fee at: <a href="https://www.redcross.org/take-a-class/classes/anaphylaxis-and-epinephrine-auto-injector---online-course/02512108.html">https://www.redcross.org/take-a-class/classes/anaphylaxis-and-epinephrine-auto-injector---online-course/02512108.html</a>.</p> <p>If the EPI Pen is administered to a child, the center is required to seek medical care by dialing 911.</p> <p>Notification of the Cabinet can be made by calling the local DRCC Office. Notification of the parent or emergency contact should not delay the center from obtaining medical treatment for the child.</p> <p>Once a rescue medication is administered the provider should record the date, time, name of person that administered the medications and the child's symptoms that were observed that prompted the administration of the drug.</p>
<b>Regulated Child Care Survey Method</b>	<p>Interview to determine if the facility has an auto injector. If so, observe to see how the device is stored. Interview and record review to determine if the device has been used and if emergency medical care was sought immediately after. Additionally, ensure the Cabinet and the child's parents were notified of the administration.</p>

<b>Category</b>	First Aid/Medication
<b>Title</b>	Medication Locked / Emergency or Rescue Meds
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(1) Medication, including medicine that requires refrigeration, shall be stored in a locked container or area with a lock unless the medication is:</p> <p>(d) An emergency or rescue medication for a child in care, such as medication to respond to diabetic or asthmatic condition, as prescribed by the child's physician. Emergency or rescue medication shall be inaccessible to a child in care;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	There are some rescue medications that may have to be stored at the child care home that should be stored in a way that is easy for the provider to access but not accessible to the children in care, i.e., inhalers, diabetic or seizure medications. These are lifesaving medications that will need to be administered at a moment's notice.
<b>Regulated Child Care Survey Method</b>	Observe and interview to determine compliance.

<b>Title</b>	Medication administration
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(2) Prescription and nonprescription medication shall be administered to a child in care:</p> <p>(a) With a written request of the child's parent or the child's prescribing health professional; or</p> <p>(b) In accordance with KRS 311.646.</p> <p>(3) Prescription and nonprescription medications shall be:</p> <p>(a) Labeled; and</p> <p>(b) Administered according to directions or instructions on the label;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	Prior to administering medication, the provider must obtain written permission from the parent or the child's physician. The provider should check the medication label to ensure the written request for medication matches the instructions on the medication bottle. The medication shall be in the original container and labeled with the child's name and medication.
<b>Regulated Child Care Survey Method</b>	Review documentation to ensure that written permission was obtained. Observe to ensure all medications are labeled with the child's name. Determine the dosage given matches the prescription or recommended dosage on the label.

<b>Title #</b>	505
<b>Category</b>	First Aid/Medication
<b>Title</b>	First Aid supplies accessible
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(4) A provider shall:  (a) Maintain first aid supplies that are easily accessible for use in an emergency, and these supplies shall be inaccessible to the children in care;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Complete first aid supplies must be maintained in clean condition and must be available for use as needed and stored in an easily accessible area that is out of the reach of children; i.e., in a cabinet, the kitchen or the office.</p> <p>The provider should make a list of required items and inventory the supplies periodically (i.e., as often as needed) to ensure they are well stocked and complete and ready for use. For providers that transport children, a complete first aid supply must be stored on the vehicle;</p>
<b>Regulated Child Care Survey Method</b>	Interview the provider to determine if first aid supplies are inventoried/replenished, and if so, how often. Having the required first aid supplies indicates compliance with this regulation.

<b>Title #</b>	510
<b>Category</b>	First Aid/Medication
<b>Title</b>	First Aid
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(4) A provider shall:  (b) Wash superficial wounds with soap and water before bandaging;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	If a child has a cut or abrasion, the provider should wash the wound with liquid soap and running water before applying the bandage.
<b>Regulated Child Care Survey Method</b>	Interview the provider to determine how minor injuries are treated. Typically, this is addressed during a complaint investigation

<b>Title #</b>	515
<b>Category</b>	First Aid/Medication
<b>Title</b>	First Aid Supplies
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(5) First aid supplies shall include a fully-equipped first aid kit containing the following non-expired items:</p> <ul style="list-style-type: none"> <li>(a) Adhesive bandages;</li> <li>(b) Sterile gauze;</li> <li>(c) Medical tape;</li> <li>(d) Scissors;</li> <li>(e) Thermometer;</li> <li>(f) Disposable gloves; and</li> <li>(g) CPR mouthpiece;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	If the provider leaves the premises to go on a field trip, the first aid kit should be taken along.
<b>Regulated Child Care Survey Method</b>	Observe the first aid kit to determine compliance.

<b>Title #</b>	520
<b>Category</b>	First Aid/Medication
<b>Title</b>	Parent Notification
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 15.</b> Medication and First Aid.</p> <p>(6) A provider shall provide immediate notification of a medical emergency to a child's:</p> <ul style="list-style-type: none"> <li>(a) Parent; or</li> <li>(b) Emergency contact, if the parent is unavailable;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	"Medical emergency" refers to an injury or illness that requires care administered by a licensed or certified health care professional. The provider must ensure that a parent is notified immediately when their child requires medical treatment. If the parent and emergency contacts are unable to be reached, it is good practice to document each attempt to contact. Notification of the parent or emergency contact should not delay the provider from obtaining medical treatment for the child
<b>Regulated Child Care Survey Method</b>	Medical treatment of a child is treatment or assessment by a health care professional, not first aid administered by staff.

<b>Title #</b>	525
<b>Category</b>	Outdoor Play Area
<b>Title</b>	Outdoor Play Area Safe
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.  (13) An outdoor play area shall be free of unavoidable danger or risk;
<b>Guideline (s) for Child Care Technical Assistance</b>	Unavoidable danger or risk may be a number of things; i.e., a railroad track that borders the property, barbed wire fencing that is rusted and accessible, culverts or holes that are not covered, vicious dogs in a neighboring yard, vines that hang low, exposed wiring on the building, wasp nests in the trees. The providers must ensure that hazards are removed prior to children using the area. The outdoor play area must be well drained with no standing pools of water. In addition, the area should be maintained; i.e., grass cut, appropriate ground cover not full of sharp rocks, bugs sprayed as needed. The playground must be in good repair at all times. If anything is broken, it should be repaired immediately. If there are hills or buildings that block the view of the entire play area, the staff should position themselves to ensure that all children can be viewed at all times.
<b>Regulated Child Care Survey Method</b>	Observe the outdoor play area to ensure there are no safety concerns. Interview the provider to determine in which area the children play outside.

<b>Title #</b>	530
<b>Category</b>	Outdoor Play Area
<b>Title</b>	Outdoor stationary equipment
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.  (15) Outdoor stationary play equipment shall be: (a) Securely anchored; (b) Developmentally appropriate; and (c) Safe;
<b>Guideline (s) for Child Care Technical Assistance</b>	All equipment used in the play area needs to be securely fastened in the ground to ensure children's safety when in use. If the play area contains crawl spaces it is imperative that the space be wide enough for an adult to be able to access at any time. Children must have an adequate amount of developmentally appropriate materials, toys and equipment for children to use on a daily basis.
<b>Regulated Child Care Survey Method</b>	Observe the outdoor play equipment Check all large equipment and climbing equipment to see if it is anchored securely to the ground and appropriate and safe for children being served.

<b>Title #</b>	535
<b>Category</b>	Equipment
<b>Title</b>	Toys
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(9) Equipment and toys shall be:</p> <p>(a) Designated by the manufacturer as developmentally appropriate to the age of children in care;</p> <p>(b) In sufficient quantity for the number of children in care; and</p> <p>(c) Safe, sound, clean, and in good repair;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	In order to ensure safety, indoor and outdoor equipment should be inspected regularly by provider to make sure they are in good working condition and clean. For example; at the end of the work day simply walking around the classroom/playground area and a quick scan can eliminate injuries in the future. Equipment should be appropriate for the age group using it. Check the manufacturer's guidelines to ensure all items are being used appropriately by children of the correct age/development level. A variety of items should be provided. Check equipment to ensure there are no safety hazards and when hazards are identified, repair the equipment immediately. The best way to check the equipment is to climb up on the equipment yourself. As equipment "settles" the connecting pieces may have gaps. These gaps can be dangerous to the children, presenting pinching or entrapment situations.
<b>Regulated Child Care Survey Method</b>	Observe the equipment and interview to determine if all toys are being used according to the manufacturer's specifications (including age appropriateness). If you are unsure, ask the provider if they have any documentation for the item. Research the internet about the item if you are still unsure.

<b>Category</b>	Equipment
<b>Title</b>	Trampoline
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(16) A trampoline shall not be accessible to a child in the care of a provider;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	Trampolines are prohibited from use by all children in attendance at a certified family child care home. If a trampoline or exercise trampoline is present on the premises, the provider should create a barrier; i.e., fence or block the area from the children attending the family child care home business.
<b>Regulated Child Care Survey Method</b>	Observe the indoor child care area and the outdoor play area to ensure all trampolines (including exercise trampolines) are inaccessible to children. If a trampoline is available on the premises, ensure proper measures have been taken to ensure it is not accessible to children in care.

<b>Title #</b>	545
<b>Category</b>	Equipment
<b>Title</b>	Swimming Pool
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(17) A swimming pool on the premises shall:</p> <ul style="list-style-type: none"> <li>(a) Be maintained and free of debris and body waste;</li> <li>(b) Have a water filtering system or be emptied daily;</li> <li>(c) Be supervised when in use; and</li> <li>(d) Be inaccessible to a child when not in use.</li> </ul> <p>(18) An above-ground pool shall have:</p> <ul style="list-style-type: none"> <li>(a) A stationary wall no less than four (4) feet tall; and</li> <li>(b) Hand holds or foot holds that are inaccessible when the pool is not in use;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<ul style="list-style-type: none"> <li>• Small child size swimming pools are allowed if they are maintained according to regulation.</li> <li>• If an in ground swimming pool is present on the premises, a fence can be installed to ensure it is not accessible.</li> <li>• Above ground pools must have a stationery wall no less than 4 feet tall. When the pool is not in use the hand holds and/or foot holds must be inaccessible. Move all furnishings and equipment away from the walls of the pool to prevent a child from climbing into the pool. All pools must not be accessible to a child when not in use. Pools should only be accessible when the provider is supervising a swimming activity for the children.</li> </ul>
<b>Regulated Child Care Survey Method</b>	<p>If a swimming pool is on the premises, interview the provider to determine procedures for supervision while pool is in use. Check the pool to ensure there is an operating filter system (this may be reviewed through the operator's manual if available). If there is no filter system observe/interview to ensure the water is emptied daily. Check the walls of the above ground pool to ensure stability and height requirements. Ensure children do not have access to the pool when it is not in use.</p> <p>Note: Also check to ensure nothing surrounds the walls of the pool (or the pool fence for in ground pools) that a child can use to gain access into the pool.</p>

<b>Title #</b>	550
<b>Category</b>	Equipment
<b>Title</b>	Playpens
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 11.</b> The General Requirements of the Family Child-Care Home Environment.</p> <p>(24) Playpens and play yards shall:</p> <ul style="list-style-type: none"> <li>(a) Meet the federal standards as issued by the Consumer Product Safety Commission, including 16 C.F.R. 1221;</li> <li>(b) Be manufactured for commercial use; and</li> <li>(c) Not be used for sleeping or napping;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	Playpens and play yards may provide more flexibility with some programs although they are never to be used for sleeping or napping and they must meet all standards issued by Consumer Product Safety Commission and in compliance with CFR 1221.
<b>Regulated Child Care Survey Method</b>	Observe the playpens and play yards to determine compliance with CFR 1221. Remember that playpens and play yards are for play and not sleep.

<b>Title #</b>	555
<b>Category</b>	Equipment
<b>Title</b>	Infant rest time
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(9) Rest time shall include adequate space specified by the child's age as follows:</p> <p>(a) For an infant:</p> <ol style="list-style-type: none"> <li>1. An individual non-tiered crib that meets Consumer Product Safety Commission standards established in 16 C.F.R. 1219-1220;</li> <li>2. A firm crib mattress in good repair with a clean tight-fitted sheet that is changed: <ol style="list-style-type: none"> <li>a. Weekly; or</li> <li>b. Immediately if it is soiled or wet;</li> </ol> </li> <li>3. No loose bedding, such as a bumper or a blanket; and</li> <li>4. No toys or other items except for the infant's pacifier;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>A tracking label located on the base of the crib may provide verification of compliance. If not, written material from the manufacturer may contain the information. The child care center must provide the written verification for each crib to the surveyor upon request. Infants in attendance at the same time may not share a crib. A provider should have enough cribs available for the number of infants present on any given shift. All cribs must be equipped with a firm mattress that is in good repair (no rips, holes or tares) as well as a tight fitting sheet (cannot be loose). Kentucky child care regulation prohibits loose bedding but does not prohibit blankets. If a blanket is provided, the blanket must not be loose; i.e., tucking the blanket around the edges of the mattress would hold it in place. A "sleep sack" would be acceptable. The infant's pacifier must not be attached to a clip. Cuddly blankets are not allowed. Bumper pads and pillows must not be used in a crib. Mobiles are not recommended. If the mobile is positioned so that it hangs over the top rail of the crib and the mobile has not been recalled by the Consumer Product Safety Commission, this would comply with the regulations once a child is able to access the mobile, the mobile must be removed from the crib.</p> <p>Note: 16 CFR 1219-1220. Beginning 6/28/2011, all cribs manufactured and sold (including resale) must comply with new and improved federal safety standards. Prior to the 2011 verify manufacturer's compliance guidelines.</p>
<b>Regulated Child Care Survey Method</b>	<p>Observe the area used for napping to determine if each infant sleeps in a crib that meets 16 CFR 1219-1220. There should be a certificate of compliance to show that the crib meets the federal requirement. There must be enough cribs available for the number of infants present on any given shift.</p> <p>If a blanket is used, it should be tucked prior to the infant going to sleep.</p> <p>Pacifier clips are not allowed.</p> <p>Bumper pads and pillows are not allowed in a crib with an infant.</p> <p>Note: This regulation only applies to infants (ages birth to 12 months). If a crib is used, it must meet federal safety standards set forth in 16 C.F.R. 1219-1220 however this would be cited under 535.</p>

<b>Title #</b>	560
<b>Category</b>	Equipment
<b>Title</b>	Toddler/preschool rest time
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12.</b> Care Requirements for a Provider.</p> <p>(9) Rest time shall include adequate space specified by the child's age as follows:  (b) For a toddler or preschool-age child:  1. An individual bed, a two (2) inch thick waterproof mat, or cot in good repair;  and  2. Bedding that is in good repair and is changed:  a. Weekly; or  b. Immediately if it is soiled or wet;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Equipment and furnishings must be size appropriate for the child and safe. If any of the sleeping equipment has a tear, rip, hole or it is no longer waterproof it has to be replaced. Bedding always has to be in good condition (no holes, rips or tears). There is no requirement for a mat or cot or bedding for a school age child as a rest time is not required by the regulations. Appropriate furnishings (cot or mat) and supplies (bedding) available to a school age child who wants or needs to rest. The requirement is for bedding which may be a sheet or blanket, sheet and blanket or sleeping bag.</p>
<b>Regulated Child Care Survey Method</b>	<p>Observe to determine if toddlers and preschoolers have an individual bed, cot or 2" thick waterproof mat in good repair. A toddler can sleep in a crib if it is developmentally appropriate (based on the size of the child, developmental capabilities). If a crib is used, it must meet federal safety standards set forth in 16 C.F.R. 1219-1220 however this would be cited under 535.</p> <p>Rest time is not required for school age children.</p>

<b>Category</b>	Transportation
<b>Title</b>	Seat belts
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 17.</b> Transportation.</p> <p>(1) If transportation is provided or arranged by the certified family child care home provider, the provider shall:</p> <p>(b) Have a car or van equipped with seat belts;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	The provider may use her/his own personal vehicle for transportation of the children. The provider must ensure that there are seat belts in working condition available for use.
<b>Regulated Child Care Survey Method</b>	Interview provider about the number of children transported on each route. Review sign on and off sheets to determine the maximum number of children transported at one time. Observe the vehicle to determine an adequate number of working seat belts are available.

<b>Title #</b>	580
<b>Category</b>	Transportation
<b>Title</b>	Car seats/seated/back seat
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 17.</b> Transportation.</p> <p>(1) If transportation is provided or arranged by the certified family child care home provider, the provider shall:</p> <p>(c) Require that a child:</p> <ol style="list-style-type: none"> <li>1. Be restrained in an appropriate safety seat meeting state and federal motor vehicle safety standards in accordance with KRS 189.125 and 49 C.F.R. 571.213;</li> <li>2. Remain seated while the vehicle is in motion; and</li> <li>3. If under thirteen (13) years of age, be transported in the back seat;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>It is the provider's responsibility to know and understand the laws of Kentucky regarding the appropriate restraint for each child. In addition, ensure that the product is in good condition and approved for use. The provider may require the parent to provide the appropriate car seat, booster seat or harnessed seat for their own child. Regardless of who provides the seat, the provider is ultimately responsible to ensure it is the proper restraint and that it is installed and used properly. The provider must ensure that each child remains seated while the vehicle is moving.</p>
<b>Regulated Child Care Survey Method</b>	<p>Interview the provider about the number of children transported at one time. Review sign on and off sheets to determine the maximum number of children transported at one time. Observe the vehicle to determine an adequate number of working seat belts and/or car seats are available.</p> <p>Any child forty (40) inches in height or less must ride properly restrained in a federally approved child restraint.</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Every child between forty-fifty-seven (40-57) inches tall and less than eight (8) years of age must be in a booster seat with a lap/shoulder belt. (If lap/shoulder belts are not available in the vehicle DO NOT use a booster seat, check for car seat.)</li> <li><input type="checkbox"/> Everyone over age eight must be using the vehicle seat belt.</li> </ul>

<b>Category</b>	Food Service / Food Program
<b>Title</b>	Milk requirements
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14. Food Requirements.</b></p> <p>(1) A provider and an assistant shall:</p> <p>(c) Serve:</p> <ol style="list-style-type: none"> <li>1. Breast milk or iron-fortified formula to a child: <ol style="list-style-type: none"> <li>a. Age birth to twelve (12) months; or</li> <li>b. Beyond twelve (12) months of age as documented by the parent or the child's physician;</li> </ol> </li> <li>2. Pasteurized whole milk to a child age twelve (12) months to twenty-four (24) months; or</li> <li>3. Pasteurized skim or low fat one (1) percent milk to a child age twenty-four (24) months to school-age;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>A provider or assistant will ensure that each child is served the appropriate serving of milk with their meals. If a child needs to deviate from any of the milk requirements (including breast milk), then the change should be documented in writing with a parent signature or from a physician and kept on file for review in the child's file. For example: Some infants may transition from formula to whole milk prior to their first birthday. Other children may require soy milk in place of cow's milk. It is up to the certified home provider to determine if they will provide the substitution or require the parents to provide the item.</p> <p>The provider or assistant must be aware of the required substitutions to ensure that each child is served the appropriate item.</p>
<b>Regulated Child Care Survey Method</b>	Interview or review documentation to note the ages of the children who attend the center and ensure that the appropriate type of milk is available. Parents may request an alternate type of milk for their child. This needs to be documented.

<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14. Food Requirements.</b></p> <p>(7) Breakfast shall include:</p> <ol style="list-style-type: none"> <li>(a) Milk;</li> <li>(b) A whole grain or an enriched grain bread; and</li> <li>(c) Fruit, vegetable, or 100 percent juice;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The provider that serves breakfast must serve three components: 1) milk; 2) bread; and 3) a choice of a fruit, a vegetable or a glass of 100% juice.</p> <p>Milk is a fluid. A dairy product may not be substituted in the place of milk. Check product labels to ensure the product is a whole grain or enriched grain product.</p>
<b>Regulated Child Care Survey Method</b>	Observe the meal or review the menu to determine compliance. Milk is required to be fluid milk and not a milk product.

<b>Title #</b>	645
<b>Category</b>	Food Service / Food Program
<b>Title</b>	Snack
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14. Food Requirements.</b></p> <p>(8) A snack shall include two (2) of the following:</p> <ul style="list-style-type: none"> <li>(a) Milk;</li> <li>(b) Protein source;</li> <li>(c) Fruit, vegetable, or 100 percent juice; or</li> <li>(d) A whole grain or an enriched grain bread;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Snacks are often served mid-morning or during afternoon hours. Snacks must have two (2) components.</p> <p>Planning ahead will allow the child care home to make use of the products they have on hand and avoid ending up with a poorly stocked pantry and serving only liquids for snack.</p> <p>Milk is a fluid. Also the bread must be a whole grain or enriched grain product.</p>
<b>Regulated Child Care Survey Method</b>	Observe the meal or review the menu to determine compliance. Milk is required to be fluid milk and not a milk product.

<b>Title #</b>	650
<b>Category</b>	Food Service / Food Program
<b>Title</b>	Lunch/Dinner
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14. Food Requirements.</b></p> <p>(9) Lunch and dinner shall include:</p> <ul style="list-style-type: none"> <li>(a) Milk;</li> <li>(b) Protein source;</li> <li>(c) 1. Two (2) vegetables;</li> <li>2. Two (2) fruits; or</li> <li>3. One (1) fruit and one (1) vegetable; and</li> <li>(d) A whole grain or an enriched grain bread;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Providers who serve lunch and/or dinner must provide five components.</p> <p>Children are to be served milk. Milk is a fluid. Substitution of a dairy product or other milk product is not acceptable. Family child care home health and safety standards state that 100% juice is only referenced as an option at breakfast and snack and is not a replacement for a natural fruit during lunch or dinner. If a child has a medical or religious need that requires a component be withheld, the parent must provide a written request to the child care home. If a substitute item is required, the provider may require the parent to provide the item.</p>
<b>Regulated Child Care Survey Method</b>	<p>Observe the meal or review the menu to determine compliance. Milk is required to be fluid milk and not a milk product.</p> <p>Combination foods such as casseroles and pizza may count for more than one component. The fruit and vegetable components cannot be met with 100% juice.</p>

<b>Title</b>	Meals not served during TV viewing
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14.</b> Food Requirements.</p> <p>(6) Meals shall:  (c) Not be served during television or video viewing;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	Electronic devices should not be played during mealtimes. For example: The television must be turned off while children are eating breakfast.
<b>Regulated Child Care Survey Method</b>	Observe and interview to determine compliance.

<b>Title #</b>	690
<b>Category</b>	Food Service
<b>Title</b>	Meal Frequency/Tableware
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14.</b> Food Requirements.</p> <p>(6) Meals shall:  (d) Be served every two (2) to three (3) hours; and  (e) Be served to a child:  1. Seated with sufficient room to manage food and tableware; and  2. Supplied with individual eating utensils designed for use by a child;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	The child care provider must have a schedule that reflects when meals are regularly served to the children. There must be no more than three (3) hours between the completion of one (1) meal and the start of the next meal. If breakfast is served from 8:30 am- 9:00 am, then lunch must begin by 12:00 p.m. to stay within the three (3) hour requirement. To ensure that children are receiving meals in a timely manner, the provider should have an assigned time for meals and implement the schedule. Scheduling breakfast from 6:00 a.m. – 9:00 a.m. makes it impossible to determine when each child was served. This type schedule would require a morning snack to be served around 9:00 a.m. to ensure that children served at 6:00 a.m. do not have to wait five-six (5-6) hours until lunch is served. It is important that a child is seated in an appropriate high chair or seat at a table to reduce the risk of choking and ensure comfort while eating. Eliminate crowding around a table or feeding area. Eating utensils should be durable and a suitable size for children.
<b>Regulated Child Care Survey Method</b>	<p>The time between meals/snacks is calculated from the end of one meal to the beginning of the next. Review the daily schedule to determine when meals are served. Observe food service to ensure that meals are provided in accordance with the regulations.</p> <p>Children are required to be seated while eating and have room to manage food and tableware if applicable. This does not prevent children from being seated on the floor to eat if sanitary conditions are maintained.</p> <p>Observe the children's eating utensils to assure they can be safely managed by a child.</p>

<b>Title #</b>	695
<b>Category</b>	Food Service
<b>Title</b>	Weekly Menu
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14.</b> Food Requirements.</p> <p>(10) A weekly menu shall be:</p> <ul style="list-style-type: none"> <li>(a) Prepared;</li> <li>(b) Dated;</li> <li>(c) Available to a parent of a child in care or the cabinet upon request; and</li> <li>(d) Kept on file for thirty (30) calendar days;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	Each family child care home must plan a menu that contains the foods served during each meal during that particular week. The menu will be reviewed to ensure a variety of foods meet the required components was served at each meal
<b>Regulated Child Care Survey Method</b>	Review documentation and interview to determine if the menu is available and easily accessible to parents.

<b>Category</b>	Food Service
<b>Title</b>	Substitutions Noted on Menu
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14.</b> Food Requirements.</p> <p>(11) Substitutions to a weekly menu shall be noted on the day the meal is served;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	If a food substitution was made to the planned menu, the provider must note the menu change before the end of the day. It would be recommended to take care of this immediately so the menu accurately reflects the food a child was served.
<b>Regulated Child Care Survey Method</b>	Review documentation. Substitutions to the menu may be changed at any time during the day the substitution is made.

<b>Title #</b>	705
<b>Category</b>	Food Service
<b>Title</b>	Bottle Preparation By Parent, if applicable
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14.</b> Food Requirements.</p> <p>(12) Unless provided as part of the fee for child care or the provider is a participant in the food program, an infant's formula shall be prepared, labeled, and provided by the parent;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>There are a several options that will meet this requirement:</p> <p>1) Most parents choose to prepare their child's bottles with the appropriate serving of formula or breast milk, label the bottle and bring it to the provider.</p> <p>2) Other parents prepare and label a container of formula or breast milk that can be poured into empty bottles labeled with the child's name at the family child care home. This allows the provider to determine the appropriate serving amount and cuts down on waste. The container of unused formula or breast milk would be sent home at the end of the day.</p> <p>3) If the CACFP sponsored provider buys and supplies the formula as part of their services, then the center may measure and mix the formula as needed.</p> <p>4) If the parent provides the formula but does not want to mix it ahead of time, the following system may be implemented: The parent would measure the appropriate amount of powdered formula into a container. The parent would measure the appropriate amount of water into another container. The containers of pre-measured water and formula would be delivered to the child care home. The staff would be able to mix the pre-measured water and formula as needed at the provider's home.</p>
<b>Regulated Child Care Survey Method</b>	Observe and interview to determine compliance. If the center provides the formula as part of the Food Program, then the center is able to prepare the formula. If the parent pre-measures the formula and the water, then the center is able to mix the two (2) components before feeding the child. The parent would still be doing the preparation.

<b>Title #</b>	710
<b>Category</b>	Food Service
<b>Title</b>	Bottles
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14.</b> Food Requirements.</p> <p>(13) Each child's bottle shall be:</p> <p>(a) Labeled;</p> <p>(b) Covered; and</p> <p>(c) Refrigerated;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	To avoid serving the wrong bottle to the wrong child, ensure that each child's bottles are labeled with their name (first and last is needed if multiple children share a name). Have a system in place to receive bottles each day and ensure they are promptly refrigerated. They should not be left in diaper bags for extended periods during morning drop off times. When a bottle is not in use, it must have a cover to prevent cross contamination. Once removed from the refrigerator and/or heated, a bottle must be consumed within one (1) hour or the contents thrown away. It may not be returned to the refrigerator for future use.
<b>Regulated Child Care Survey Method</b>	Observe to determine compliance. Each bottle should be labeled with a child's name or some method to determine what child is to be fed the bottle's contents. Bottles are to be promptly refrigerated and covered when not in use. However sometimes an infant will eat a portion of the bottle and needs to be burped or rest so the bottle may be put down for a period of up to an hour.

<b>Category</b>	Food Service
<b>Title</b>	Refrigerator
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14.</b> Food Requirements.</p> <p>(14) The refrigerator shall:</p> <ul style="list-style-type: none"> <li>(a) Be in working order; and</li> <li>(b) Maintain a product temperature at or below forty-five (45) degrees Fahrenheit;</li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	The provider should keep a working thermometer in each refrigerator in the home to check the temperature to ensure compliance. The temperature in the refrigerator should be no more than 45 degrees Fahrenheit.
<b>Regulated Child Care Survey Method</b>	Observe to determine if the temperature of the refrigerator (s) are maintained at forty-five (45) degrees Fahrenheit or below. A refrigerator may have an indicating thermometer. Some refrigerators have built in thermometers and this is acceptable.

<b>Title #</b>	720
<b>Category</b>	Food Service
<b>Title</b>	Freezer At Zero Degrees Fahrenheit
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14.</b> Food Requirements.</p> <p>(15) Except if thawed for preparation or use, frozen food shall be kept at a temperature of zero degrees Fahrenheit as verified by a thermometer in the freezer;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	The provider should have a working thermometer in each freezer in the home to ensure the temperature of zero degrees Fahrenheit is maintained.
<b>Regulated Child Care Survey Method</b>	Observe to determine the temperature of the freezer is zero degrees Fahrenheit. A thermometer must be either built in or placed in the freezer.

<b>Title #</b>	725
<b>Category</b>	Food Service
<b>Title</b>	Bottle-Feeding
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 14. Food Requirements.</b></p> <p>(16) While bottle-feeding an infant, the:</p> <ul style="list-style-type: none"> <li>(a) Child shall be held; and</li> <li>(b) Bottle shall not be: <ul style="list-style-type: none"> <li>1. Propped;</li> <li>2. Left in the mouth of a sleeping infant; or</li> <li>3. Heated in a microwave;</li> </ul> </li> </ul>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Infants are children ages birth to twelve (12) months of age. If the baby falls asleep while drinking the bottle, the bottle should be removed immediately. If the infant is able to hold and control their own bottle it would be acceptable to place the infant in an appropriate feeding furnishing (i.e., high chair) and supervise the child while they hold and drink their own bottle. Infants should never be allowed to carry a bottle while walking, running or standing.</p> <p>Many providers have bottle warmers, crock pots or place the bottle in a pan of warm tap water to warm the bottle prior to feeding. <b>The warming device should be in a secure location, out of the reach of the children.</b></p> <p>Helpful hint: the temperature of the water used to warm a bottle should not exceed 120 degrees (Caring for Our Children, Third Edition.)</p>
<b>Regulated Child Care Survey Method</b>	Observe to determine compliance. An infant is defined as a child from birth to 12 months. An infant who is able to hold his/her bottle, may be seated and allowed to hold their bottle. The seat must be a fully upright seat.

<b>Title #</b>	730
<b>Category</b>	Children's Records
<b>Title</b>	Immunization
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 18.</b> Records.</p> <p>(1) A provider shall maintain:</p> <p>(a) A current immunization certificate for each child in care within thirty (30) days of the child's enrollment, unless an attending physician or the child's parent objects to the immunization of the child pursuant to KRS 214.036;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>All child care providers must obtain written documentation of each child's immunization record. For children who are new to the center, the immunization certificate must be presented within the first thirty (30) days. For children who are enrolled, the immunization record must be current (has not passed the date specified on the record.) Children, who do not have one of the approved immunization certificates on file at the child care center, would not be allowed to attend the child care center. Approved sources of immunization certificates include:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Commonwealth of Kentucky Immunization Certificate</li> <li><input type="checkbox"/> Commonwealth of Kentucky Provisional Immunization Certificate</li> <li><input type="checkbox"/> Commonwealth of Kentucky Certificate of Medical Exemption</li> <li><input type="checkbox"/> Commonwealth of Kentucky Certificate of Religious Exemption</li> </ul> <p>Or, if the immunization certificate was not provided by CHFS, it shall:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Be a hard copy or electronically produced</li> <li><input type="checkbox"/> The name of the child</li> <li><input type="checkbox"/> The birthdate of the child</li> <li><input type="checkbox"/> The name of the parent or guardian of the child</li> <li><input type="checkbox"/> The address of the child, including street, city, state, zip code</li> <li><input type="checkbox"/> The types of vaccines administered to the child</li> <li><input type="checkbox"/> The date that each dose of each vaccine was administered</li> <li><input type="checkbox"/> Certification that the child is current for immunizations until a specified time, including a statement that the certificate shall not be valid after the specified date</li> <li><input type="checkbox"/> The signature and date of the signature of the medical professional.</li> </ul> <p>Children who are unable to be immunized for any reason (medical, religious or parent preference) must obtain a medical exemption form (IMM-2) from their physician or local health department.</p>
<b>Regulated Child Care Survey Method</b>	<p>Review children's files to determine if each child has a current immunization certificate. Parents who object to the immunizations may provide a written sworn statement to the objection and their children are not required to be vaccinated. Physicians may also indicate that immunizations should not be administered. Surveyors should observe an immunization certification with a current expiration date or an exemption notice from a parent.</p> <p>Before citing this tag, ensure the child(ren) who does not have the required documentation have been enrolled for more than thirty (30) days.</p>

The name of each person who is designated in writing to pick-up the child;</li> <li>d. The child's general health status and medical history including, if applicable: <ol style="list-style-type: none"> <li>(i) Allergies;</li> <li>(ii) Restriction on the child's participation in activities with specific instructions from the child's parent or health professional; and</li> <li>(iii) Permission from the parent for third-party professional services in the family child care home;</li> </ol> </li> <li>e. The name and phone number of each person to be contacted in an emergency situation involving or impacting the child;</li> <li>f. Authorization by the parent for the provider to seek emergency medical care for the child in the parent's absence;</li> </ol> </li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>If a third-party professional is working with a child, a written letter/release form from the parent/guardian of the child will also need to be kept on file.</p> <p>Third-party professional services include any professional coming into the center to work with an individual child for the child's general health status and medical history. For example, OT/PT, early childhood mental health, etc. require parental consent in a family child care home.</p> <p>The name and phone number of each person to be contacted in case of an emergency situation involving or impacting the child needs to be included in the child's file.</p> <p>A written form or letter from parents to give the provider permission to seek emergency medical care for the child in the parent's absence is required</p> <p>Siblings' paperwork may be stored in one file; however, paperwork for each individual child must be maintained at the child care home. It is an unacceptable practice to have one form completed for multiple children in a family.</p>
<b>Regulated Child Care Survey Method</b>	<p>Each child must have this information on file. Review at least three (3) children's files during a survey to determine compliance. Siblings' forms may be placed in the same file; however, each child is required to have an individual enrollment form. A third-party professional service is any professional that comes into the center to provide services to a child or a group of children. All children in contact with this professional are required to have parental permission on file.</p>

<b>Title #</b>	740
<b>Category</b>	Children's Records
<b>Title</b>	Permission for trips off premises
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 18.</b> Records.</p> <p>(1) A provider shall maintain:</p> <p style="padding-left: 20px;">(b) A written record for each child:</p> <p>3. To contain:</p> <p style="padding-left: 20px;">g. A permission form for each trip away from the family child care home signed by the child's parent in accordance with Section 17(1) of this administrative regulation;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Prior to leaving the family child care home the provider must have the parent/guardian sign a permission form. Some trips may be taken regularly/frequently; i.e., a weekly trip to the local library, a trip to school each morning to drop off other children or perhaps a walk to the park one afternoon each week. If the trip occurs regularly, the provider could have a blanket permission form that states what day (s) of the week, what time of day, how will the child get there and where the child will go. The parent would sign the form authorizing the regular trip away from the family child care home. If there is a field trip or one-time trip, the provider would ask the parent to sign a release form specific to that trip. Prior to walking or driving off the property for any reason – a written permission is needed from the parent.</p>
<b>Regulated Child Care Survey Method</b>	<p>Review documentation and interview the provider to determine if any trip off the premises requires a permission slip signed by the child's parent. The permission slip may include multiple trips but each trip needs to include a specific location. A blanket permission slip is acceptable for providers that frequently travel to a nearby park or other area. The parents may sign they give permission for these trips (can be walks) to occur to the specified area. Also, a provider may have a permission slip that indicates the children are taken to the library on a specific day each week at a specified time. A provider cannot have a blanket permission slip that just gives permission for them to transport at any time for a field trip.</p>

<b>Title</b>	Liability insurance
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 2.</b> Certification Process.  (2) An applicant for certification shall: (b) Obtain commercial liability insurance of at least \$50,000 per occurrence;
<b>Guideline (s) for Child Care Technical Assistance</b>	The provider must keep a copy of the commercial liability insurance on file for review. Helpful hint: the “declarations” page of the insurance policy includes all the needed information for a DRCC surveyor; i.e., the name of the provider, address of the provider’s home, effective dates of coverage, policy #, amount of insurance. Please remember this is not home owner’s insurance. This is a commercial liability policy that verifies the provider is insured up to fifty thousand (\$50,000) per occurrence.
<b>Regulated Child Care Survey Method</b>	Review written documentation to verify it is current and has at least \$50,000 per occurrence.

<b>Title #</b>	755
<b>Category</b>	Written Documentation
<b>Title</b>	Zoning
<b>Child Care Regulation Text</b>	<b>922 KAR 2:100 - Section 2.</b> Certification Process.  (2) An applicant for certification shall: (c) Submit within ninety (90) days of initiation of the application process:  3. Written documentation from the local authority showing the child care home is in compliance with local zoning requirements;
<b>Guideline (s) for Child Care Technical Assistance</b>	A provider must obtain zoning approval from the local zoning board or entity. All conditions specified by the local zoning authority must be met before the Division of Regulated Child Care issues a certificate.  Helpful hint: providers should remember that if their home is located in a subdivision or development, they may have neighborhood/homeowner policies regarding operating a business.
<b>Regulated Child Care Survey Method</b>	A report or a zoning letter from a local city/county authority should be reviewed during a change of location, increase of capacity, initials and renewals to verify the center has met requirements.

<b>Title</b>	Attendance Records Standards
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 10.</b> Standards for the Provider.</p> <p>(12) A provider shall:</p> <p>(b) Maintain daily attendance records documenting the arrival and departure time of each child, including records that are required in accordance with 922 KAR 2:160, Section 13 if a child receives services from the provider through the Child Care Assistance Program;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The regulation does not indicate who will sign the children in and out of care. (For example: regulations do not state that a parent must complete the form.) It is ultimately up to the child care provider to ensure that the record is kept and that it is accurate.</p> <p>The DCC-94E, Child Care Daily Attendance Record form is required for use for all children who are participating in the Child Care Assistance Program. This form does require the authorized parent/guardian or designated person to review the form and sign confirming that the arrival and departure times recorded on the forms are correct. (A designated person would be any adult listed by the parent on the child's pick up list.)</p> <p>The Child Care Daily Attendance Record form will also fulfill the attendance record requirement for child care certification. Note: It is an acceptable practice for a child care provider to require a parent/guardian to sign a child in and out daily. This exceeds the requirement of the regulation.</p> <p>Note: Children who leave the program during the day and return must be reflected on the attendance sheets which includes school, appointments, etc.</p>
<b>Regulated Child Care Survey Method</b>	<p>Review the children's daily attendance records to ensure a specific time (00:00 a.m./p.m.) has been documented for each arrival and departure on a daily basis. If the center is a part of CCAP, each participating child's arrival and departure times must be documented on the required attendance record.</p> <p>Note: Keep in mind some children (school age) may have more than one arrival and departure time per day. Symbols and letters are not acceptable when recording a child's attendance.</p>

<b>Title</b>	Evacuation Plan Records
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 18.</b> Records.</p> <p>(7)(a) A certified family child care home provider shall have a written evacuation plan in the event of fire, natural disaster, or other threatening situation that may pose a health or safety hazard to a child in care in accordance with KRS 199.895.</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The written plan to address emergency situations must include a designated relocation site and evacuation route, procedures for notifying parents and plan for reunification; procedures to address needs of individual children including those with special needs; development of duties and training of the staff; coordination with local emergency management. The written plan must be updated and submitted to the local emergency management by December 31st each year.</p> <p>The Division of Child Care has a form that meets the regulatory requirement or the provider may develop their own plan that contains the required components. When updating the form/plan annually if there are NO CHANGES, the provider should:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Mark through the date and record the new date</li> <li><input type="checkbox"/> Write "No changes"</li> <li><input type="checkbox"/> The provider signs his/her name</li> <li><input type="checkbox"/> Make a copy of the plan before you send it in and always record the date the plan was submitted to emergency management.</li> </ul> <p>If the Division of Child Care Emergency/Disaster Preparedness Plan Form is used, the first and last page of the document should be re-dated and re-signed. When completing the form/plan annually, a new form/plan must be completed and submitted if there ARE ANY CHANGES. Do not mark through items on the original form/plan and do not attach a sheet that contains multiple changes.</p>
<b>Regulated Child Care Survey Method</b>	Review the written plan to ensure it describes, in detail, how children will be kept safe during any disaster (man-made and natural), and ensure the plan includes specific information listed in KRS 199.895.

<b>Title</b>	Daily Planned Program of Activities
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 12. Care Requirements for a Provider.</b></p> <p>(13) A certified family child care home shall provide a daily planned program:</p> <ol style="list-style-type: none"> <li>(a) That is available to a parent of a child in care or the cabinet upon request;</li> <li>(b) Of activities that are developmentally appropriate for each child served;</li> <li>(c) That provides experience to promote the individual child's physical, emotional, social, and intellectual growth and well-being;</li> </ol>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>Plans for school age children who may attend for part day program (before and after school) or full day care should be included.</p> <p>Refer to Title Number: 305</p> <p>Note: The daily planned program no longer has to be posted.</p>
<b>Regulated Child Care Survey Method</b>	During the inspection review the written planned program and then observe the actual programming being provided to the children to determine if it is developmentally appropriate for the children being served. The daily planned program should be written and followed. However, adjustments may be made to the schedule and/or planned activities to best meet the needs of the children. For example, the teacher may provide additional outdoor time on a sunny day or an activity may be cut short and replaced if the children do not seem interested. If it is unclear during the inspection it may be necessary to interview the staff to gather more information.

<b>Category</b>	Animals
<b>Title</b>	Animals
<b>Child Care Regulation Text</b>	<p><b>922 KAR 2:100 - Section 16.</b> Animals.</p> <p>(1) An animal shall not be allowed in the presence of a child in care:</p> <p>(a) Unless:</p> <ol style="list-style-type: none"> <li>1. The animal is under the supervision and control of an adult;</li> <li>2. Written parental consent has been obtained; and</li> <li>3. The animal is certified as vaccinated against rabies; or</li> </ol> <p>(b) Except in accordance with subsection (3) of this section.</p> <p>(2) A parent shall be notified in writing if a child has been bitten or scratched by an animal.</p> <p>(3) An animal that is considered undomesticated, wild, or exotic shall not be allowed at a certified family child care home unless the animal is:</p> <p>(a) A part of a planned program activity led by an animal specialist affiliated with a zoo or nature conservatory; and</p> <p>(b) In accordance with 301 KAR 2:081 and 301 KAR 2:082;</p>
<b>Guideline (s) for Child Care Technical Assistance</b>	<p>The child care provider must ensure animals that are allowed to roam freely or come in contact with a child do not pose a threat to the children’s safety. Providers must constantly monitor and supervise the animals to ensure the children’s safety at all times. Animals that are aggressive or those that become easily agitated should never be allowed in the area of a child.</p> <p>Having each parent sign a blanket release form that contains the type of animal and classroom location is suggested. This will ensure that regardless of which room a child may visit; the parent is aware of the animals/pets that a child may contact.</p> <p>Child care regulatory policy will allow the following enclosed or caged classroom animals with parental consent: fish, hamsters, gerbils, guinea pigs, hermit crabs, turtles, birds, non-poison amphibians, bearded dragons, rabbits, chinchillas, caterpillars and butterflies.</p> <p>If the animal does not require a rabies shot (ex. rabbits, fish, hamsters, etc.), then vaccine documentation is not required for regulatory compliance.</p>
<b>Regulated Child Care Survey Method</b>	<p>Written parental consent must be obtained for any children to be in the presence of animals. The animals must be under the supervision/control of an adult and all dogs, cats and ferrets must be vaccinated against rabies.</p> <p>The center must notify a parent in writing if a child is bitten by an animal. Undomesticated, wild or exotic animals can only be allowed at a center if it is part of a planned activity by an animal specialist or nature conservatory.</p> <p>Fish, hamsters, gerbils, guinea pigs, hermit crabs, turtles, birds, non-poisonous amphibians, bearded dragons, rabbits, chinchillas, caterpillars and butterflies are allowed at a center with parental consent.</p>
