Dosage/Amount of Medication Given \_\_\_\_\_

First and Last Name of Staff Administering the Medication:

\_\_\_\_\_

Names of Any Additional Staff Present? \_\_\_\_\_

## REGULATORY COMPLIANCE

There are some rescue medications that may have to be stored at the child care center, i.e., EPI pens, inhalers, diabetic or seizure medications. These are lifesaving medications that will need to be administered at a moment's notice.

A blanket permission form or written instruction from a physician may be kept on file with the medications that includes: symptoms to watch for, administration directions, continued action plans that might include dialing 911 and notification of parents.

### 922 KAR 2:120 Section 7

*(5) The child care center shall keep a written record of the administration of medication, including:*

- (a) Time of each dosage*
- (b) Date;*
- (c) Amount;*
- (d) Name of staff person giving the medication*
- (e) Name of the child; and*
- (f) Name of the medication*

*A child-care center shall have at least one (1) person onsite who has received training on the administration of an epinephrine auto-injector if the child-care center maintains an epinephrine auto-injector*
