## SAMPLE

Child's name: J.D.	Assessment goal: J.D. will label common objects and actions.	Activity: While playing with J.D. the teacher will name objects the child is playing with and encourage the child to verbalize the name of the object.
Child's name: M.H.	Assessment goal: M.H. will take items in and out of containers.	Activity: While playing with M.H. the teacher will provide the child with a container filled with objects and the teacher will demonstrate how to take objects in and out of the container and encourage the child to do it.
Child's name: L.P.	Assessment goal: L.P. will find a hidden object easily.	Activity: While playing with L.P. the teacher will hide objects under a blanket, helping the child find the object when needed.
Small Group: J.D., M.H. and L.P.	Assessment goal: Follows simple one step directions.	Activity: While playing with the children in a small group, the teacher will ask a question and then model the answer. For example, the teacher will ask the children to touch their nose, then help the children touch their nose.
