

Quality Coach Menu of Services

Child Care Aware of KY Quality Coaches can offer a variety of free technical assistance services to directors and teachers who are interested in improving the quality of their program. Listed below are some of the topics coaches can assist with.

Assessment - Discuss the difference between screening and assessment and provide examples of documents and systems that support on-going curriculum-based assessment.

Daily Schedule - Develop a daily schedule that balances activities and creates structure throughout the day.

Developmental Screening - Think through how to develop a plan for screening new children within 90 days of enrollment and the process for referral if necessary.

Display - Help teachers learn what types of posters/pictures/photos are appropriate for the classroom and how to use display to facilitate learning.

ECE-TRIS - Help learn how to navigate the ECE-TRIS website, and review of the ways the website can support the director in planning professional development for staff.

Family Engagement - Strategies to promote strong relationships between families and childcare program.

Group Times - Learn strategies for managing both large and small group times, and how to make those group times fun and engaging for everyone involved.

Lesson Plans - Create a lesson plan of activities, experiences, and changes to the environment to support children's development and learning.

Policy and Procedures - Explore policy and procedures to support quality practices for parents and staff.

Room Setup - Establishing the physical environment to support the children's learning.

Toys and Materials - What toys and materials are recommended for each age group and the purpose of the recommendation.

Transitions - Provide teachers with strategies to ensure successful transitions as children move or change from one activity to another throughout the day.

Quality Planning - Provide guidance and strategies on developing a quality improvement plan.
